Report of the Board of Trustees

*To His Excellency,
Hon. Edwin C. Johnson,
Governor of Colorado.*

SIR:

As President of the Board of Trustees of the Colorado School for Deaf and Blind, it is my privilege to submit the Fifty-ninth Annual Report of the activities of the School for the year ending June 30, 1933.

Our esteemed Superintendent, Dr. Thomas S. McAloney, who had served the School as Superintendent for the past ten years, died suddenly August 2, 1932. By unanimous action of our Board, Mr. Alfred L. Brown, President of the Florida School for the Deaf and the Blind, was invited to accept the place made vacant by Dr. McAloney's death. Mr. Brown had served our School for sixteen years before accepting the call of the Florida School four years ago and was familiar with the work of the School and with the standing of nearly all of the teachers and pupils. His selection and acceptance was a most fortunate one, and the work of the School has gone forward without interruption.

To our great regret, the term of office as Trustee of our School of Senator George E. West terminated April 28, 1933. Governor Johnson appointed to succeed Senator West for the six-year period Mrs. L. Kent Robinson, of Denver, Colorado, whose appointment was duly confirmed by the Senate.

We fully recognize that the replacement of the Girls' Hall, the home of some eighty older deaf and blind girls, must be deferred for a time for want of funds. This building, filled as it is with girls handicapped either by deafness or blindness, should be replaced, when our finances permit, by a fire-proof building.

Our total enrollment for the year was two hundred and seventy. It will be noticed that this enrollment is fully one hundred larger than it was some twelve years ago, requiring an increased expenditure both for teaching and maintenance.

You will find attached the Superintendent's report, giving in detail the activities of the School. The course of study in each department of the School, both industrial and academic, is kept up to date in every respect, and this accounts, in part, for the excellent reputation which the School possesses.

It is a source of great satisfaction to us to know that our grad-

uates who are attending institutions of higher education are doing notable work. The success of our graduates is always a matter of deep pride to all connected with our School.

The efficient service rendered by all connected with the School is to be highly commended.

Respectfully submitted,

July 1, 1933.

ASA T. JONES,
President, Board of Trustees.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN :

I now have the honor to submit the annual report of the Colorado School for Deaf and Blind for the year ending June 30, 1933.

During the year we enrolled 270 pupils, which is the largest enrollment that the School has experienced since it was founded. They were classified as follows:

Deaf pupils	Boys, 120; girls, 83.	Total, 203
Blind pupils	Boys, 40; girls, 27.	Total, 67

The enrollment by counties is as follows:

County	Deaf Blind		County	Deaf Blind	
Adams	4		La Plata	8	1
Alamosa	3		Larimer	3	4
Arapahoe	1		Las Animas	6	6
Archuleta	1		Lincoln	3	1
Baca	1	1	Logan	2	2
Bent	5	2	Mesa	4	1
Boulder	3	3	Montezuma	1	1
Chaffee	5		Montrose	5	
Conejos	1	1	Otero	4	
Costilla	1		Phillips	1	
Crowley	2		Prowers	2	
Custer		1	Pueblo	11	3
Delta	1	2	Rio Grande	3	1
Denver	28	15	Routt	1	
Douglas		1	Saguache	1	
Elbert	4		San Juan	1	
El Paso	35	5	Summit		1
Fremont	5	1	Washington	1	
Garfield	1	1	Weld	18	3
Gunnison	1	1	Yuma	1	1
Huerfano	2	2	State of Wyoming.....	17	3
Jefferson	5	1			
Kit Carson	1	2	Total.....	203	67

CHANGES IN STAFF

When School closed in June, 1932, two of our teachers, Miss Delphine Buron and Miss Susan Lewis, resigned to be married. Their places were filled by the appointment of Miss Sara Guthrie and Miss Margaret Nelson, both of whom had had splendid training for the work, and who came to us well recommended. Another

vacancy also occurred in our staff by the sudden and unexpected death of Mr. Stanley Effinger, who had directed our chorus for some time. Mr. Charles Bybee, who had had training and experience, was selected to take over this work. We feel ourselves fortunate in the selection of the above persons to become a part of our School force.

GRADUATES

Our graduating exercises were held Wednesday evening, May 17th, with one of the largest graduating classes that we have ever had in the history of the School.

We were most fortunate in having with us on this occasion our Governor, the Honorable Edwin C. Johnson, whose address was most pleasing. We felt highly honored at his presence, and the graduates who received their diplomas from his hand felt doubly honored on this occasion. After the awarding of the usual special prizes, diplomas were awarded to the following graduates who had successfully completed the prescribed course:

DEPARTMENT FOR THE DEAF

Clara Cecilia Tancher, Florence
Helen Elizabeth Holcomb, Fort Collins
Mike Milan Korach, Erie
Louis Emile Lato, Grand Junction
John Miklas, Durango
Howard Henry Kilthau, Denver
Fred Ivan Gustafson, Colorado Springs
Robert Edward Brown, Denver
Byron Bender Bunkelmann, Colorado Springs
Alva Hubert Parmenter, Colorado Springs

DEPARTMENT FOR THE BLIND

David L. Fager, Durango
Rafael Madril, Alamosa
Lyle M. Schwartz, Colorado Springs
Theodore P. Albrecht, Colorado Springs
Charles W. Brammer, Sheridan, Wyoming
Merrill G. Graham, Denver
Melinee Bolton, Denver

Jean H. Cameron received a diploma in music, and certificates in piano tuning were presented to Rafael Madril and Charles Brammer.

The Baccalaureate sermon was preached by Rev. Wallace H. Carver, D. D., pastor of the First Presbyterian Church of Colorado Springs.

RITTER HALL—ONE OF THE NEW BUILDINGS FOR THE SMALLER CHILDREN

SCHOLARSHIP

The pupils of the School are held up to a high standard of scholarship where the capabilities of the individual permit. It is our aim to have each student strive to do his best, whether it be in the schoolroom or in the industrial trades, so that he may form that habit which is most valuable to anyone in meeting the problems of life.

It is most gratifying to us that those who have pursued higher education since leaving us have ranked high in scholarship wherever they have gone. One of our graduates who recently finished Colorado College was awarded membership in the Honorary Scholastic Fraternity, Phi Beta Kappa. Another, who is attending Regis College, stood second in his class of seventy-seven. One of our old pupils who is attending Colorado University stands high in scholarship, and one of our girl graduates is making grades among the very highest at Colorado Woman's College. We are proud of these young people and rejoice with them in their success.

We try to keep in touch with other educational centers, and the methods used at this School are those approved by the best schools throughout the country. It shall be our aim to keep this School up to its usual high standards. Each department is given careful consideration and attention. Only by close cooperation between the various departments can the greatest good be accomplished by the School.

COURTESIES

The citizens of Colorado Springs have always been very considerate of our pupils, and many courtesies have been extended to them which have brought pleasure and happiness. We appreciate the courtesy extended to us by the Civic Concerts, Inc. Through their generosity our older pupils heard many pleasant and inspiring concerts. The Lions Club of Colorado, whose major activity is work for the blind, have always shown great interest in our students. During the past year they have given material assistance to many of our boys and girls. Other organizations and individuals have extended many courtesies to us. For all of these we wish to express our deep appreciation.

Respectfully submitted,

July 1, 1933.

A. L. BROWN,
Superintendent.

Report of the Director of Music

A. L. Brown,
Superintendent.

DEAR SIR:

The pupils in the Music Department for the year 1932-1933 have shown a great deal of interest in their work and have made considerable progress.

The Braille classes, for beginners, were continued this year, and this seems the most satisfactory way of teaching it.

As usual, the regular monthly programs have been given in the Chapel. This gives the pupil experience and confidence in appearing before an audience. One extra program for the Intermediate pupils was given at the close of the year.

The pupils have enjoyed taking part on many programs, other than those at the School, and have made an unusual number of appearances this year.

An opportunity was given the students to attend the Civic Concerts and other entertainments—these privileges being of educational value, as well as most enjoyable.

The number of pupils enrolled in the department, follows:

Piano	34
Organ	3
Violin	10
Harmony	3
Theory	1
History	1
Orchestra	8
Senior Choir	28
Junior Choir	31
Tuning	5

Respectfully submitted,

Mabel L. Hemus,
Director of Music.

Report of the Medical Staff

A. L. Brown,
Superintendent.

DEAR SIR:

The staff of physicians for the School consists of three—an eye specialist; a nose, throat and ear specialist; and an internist.

The new pupils admitted to the School were routinely examined to discover any physical defects in order that the pupils might be better prepared for their regular work. Each new pupil was vaccinated and each had a blood Wasserman.

The institution is provided with a hospital. There are three wards in the main hospital and an annex of three special wards for quarantine purposes. The entire capacity of the hospital is approximately thirty-six. A registered nurse, directed by the visiting staff, is in charge.

During the term there were admitted to the hospital four hundred fifty-six bed patients.

Pupils requiring refraction were attended to. All minor ailments and physical defects were given special attention for the general improvement of the health conditions. There were sixteen children immunized with diphtheria toxin-anti-toxin.

Dispensary work, including minor accidents, treating eyes, ears, nose, throats, cuts, and bruises, etc., averaged thirty-five cases daily.

There were no deaths.

Accidents:		Epilepsy	14
Compound fracture leg.....	1	Infection	8
Fractured ankle	1	Pneumonia	1
Fractured forearm	1	Influenza	5
Injured eyes	2	Observation	5
Contagious diseases:		Earache	4
Mumps	34	Appendectomy	3
Chicken pox	13	Appendicitis, convalescing	3
Scarlet fever	10	Tonsillectomy	1
Scabies	10	Sprained ankles	3
Coryza	168	Appendicitis, chronic	2
Constipation	46	Croup	2
Sore throats	45	Rheumatism	2
Headaches	44	Sore knees	2
Indigestion	15	Miscellaneous	11
Torticollis	2		

Respectfully submitted,

J. H. BROWN, M. D.

LIBRARY FUND

This fund consists of \$10,000 donated by General William J Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Heights Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

TABLE V

Showing kinship as reported in 1,032 cases of deafness and 453 cases of blindness.

DEAF

In thirty-seven (37) cases of deafness, parents were related before marriage.

Twenty-three (23) deaf pupils have deaf parents.

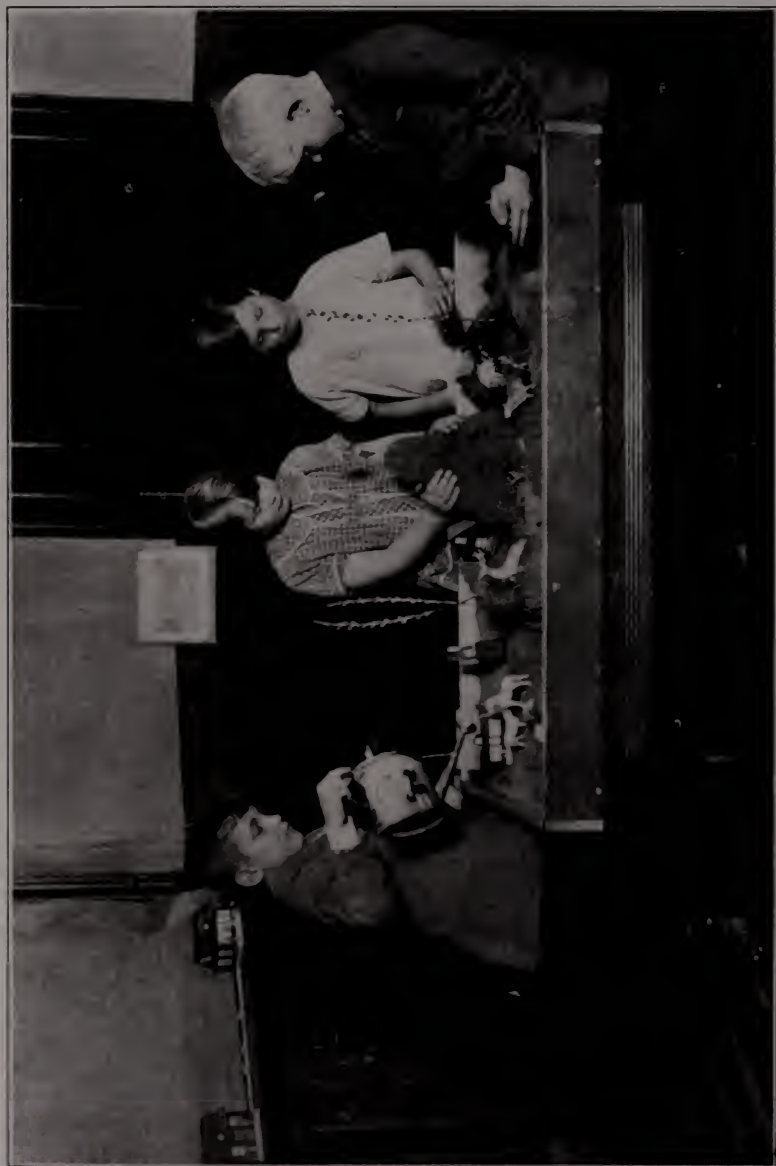

One hundred fifty-nine (159) deaf pupils have deaf relatives.

BLIND

In sixteen (16) cases of blindness, the parents were related before marriage.

Nine (9) blind pupils have blind parents.

Forty-two (42) blind pupils have blind relatives.

Report of the Board of Trustees

*To His Excellency,
Hon. Edwin C. Johnson,
Governor of Colorado.*

SIR:

On behalf of the Board of Trustees of the Colorado School for Deaf and Blind, it is my pleasure and privilege to present to you the Sixtieth Annual Report of the activities of the School for the year ending June 30, 1934.

The number of children educated by this School since it was established up to the end of June 30, 1934, is 1056 deaf and 466 blind, making a total of 1522 children.

I respectfully refer you to the Superintendent's report, which gives in detail the work of the academic and vocational departments of the School and the progress made by the pupils in these departments. You will also find a detailed financial statement in this report showing the receipts and expenditures for the year.

We are pleased to report that the same high standard of work of the School is being maintained in the various departments as it has been in the past.

While we recognize the importance of replacing Girls' Hall, which is a fire hazard, no definite plans have been made in that direction under the existing conditions of the last few years.

Economy has been practiced, but the buildings and property of the School have been kept in excellent repairs. Expenditures have been made consistent with the needs for carrying on the work of the School in an efficient manner.

We commend the officers and teachers of the School for their conscientious and excellent services.

Respectfully submitted,

July 1, 1934.

ASA T. JONES,
President, Board of Trustees.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN:

It is now my privilege to submit to you the annual report of the Colorado School for Deaf and Blind for the year ending June 30, 1934.

For the last few years there has been a gradual increase in the enrollment at the School. Last year the enrollment was the highest it had ever been, and this year the number enrolled is practically the same as last year. There were 268 pupils enrolled during the year and they were classified as follows:

Deaf pupils Boys, 128; girls, 80. Total, 208

Blind pupils Boys, 36; girls, 24. Total, 60

The following is the enrollment by counties:

County	Deaf	Blind	County	Deaf	Blind
Adams	3		La Plata	7	1
Alamosa	2		Larimer	2	5
Archuleta	1		Las Animas	5	3
Baca	1	1	Lincoln	2	1
Bent	3	2	Logan	2	2
Boulder	5	3	Mesa	4	1
Chaffee	6		Montezuma	1	
Cheyenne	3		Montrose	4	
Conejos	1	1	Morgan	1	1
Costilla	1	1	Otero	3	1
Crowley	2		Phillips	1	
Custer		1	Prowers	2	
Delta	1	2	Pueblo	12	4
Denver	30	11	Rio Grande	3	1
Douglas		1	Routt	1	
Elbert	5		Saguache	2	
El Paso	32	4	San Juan	1	
Fremont	4	2	Washington	2	
Garfield	1	1	Weld	22	1
Grand	1		Yuma	2	1
Gunnison	1	1	State of Wyoming	15	2
Huerfano	4	2			
Jefferson	5	1	Total	208	60
Kit Carson	1	2			

CHANGES IN STAFF

For a number of years when there was a scarcity of teachers there were usually several changes in the personnel of teaching

staffs of the various schools for the deaf and blind throughout the country. Some teachers made it a practice to seek employment in different schools in order to have the experience of living in different parts of the United States. With the advent of a scarcity of positions, this practice seems to have ceased to a large extent.

At the close of school in 1934 we had two resignations. Miss Bertha Beisigl, one of our teachers of the deaf, resigned to be married. She was an efficient teacher and we were sorry to lose her services; but our best wishes go with her. Miss Evelyn Bond, who has had good training and experience in the work, has been appointed to take her place.

Mrs. Velma I. Harris, who had been teacher of Domestic Science for about twelve years, resigned to devote her time to her home duties. During her connection with the School a book of menus and a course of study was prepared, both of which are used as the basis for the text material in our Domestic Science course. The book of menus and course of study were distinct contributions to the profession. Mrs. Carolyn Dudley, who has had several years of experience in this work in the public schools of Colorado Springs and Denver, has been appointed to take Mrs. Harris' place.

GRADUATES

The graduating exercises were held on Wednesday evening, May 16th, in our School Auditorium.

It so happened this year that there were no graduates from the Department for the Blind but that we had an unusually large number from the Department for the Deaf.

We had the privilege of having with us again this year, for this occasion, our Governor, the Honorable Edwin C. Johnson. It is very gratifying to us here at the School to have our chief executive take this interest in the work that we are carrying on and to manifest his interest by his presence at our exercises. It is needless to say that our graduates felt especially honored at receiving their diplomas from his own hand.

After the special prizes, which are awarded at this time, were given out, diplomas were awarded to the following graduates who had completed the course of study:

Carlie Alberta Roach, Denver
Gail Estella Bloomfield, La Junta
Dorothy Elizabeth Lea, Mayoworth, Wyoming
Violet F. Cook, Elbert
Edward F. Gonzales, Sugar City
Frank Marlin Davis, Longmont

Shirley L. McCrory, Wray
Elsie May Lindeburg, Galeton
Frances Grace Horne, Greeley
Celina Lina Jaramillo, Alamosa
Howard Walter Sullivan, Denver
Charles Arlington Cox, La Junta

The Baccalaureate sermon was preached by the Rev. Albert W. Luce, D. D., pastor of the Pikes Peak Christian Church of Colorado Springs.

In addition to the regular graduates, we had one student, Robert Brown of Denver, who finished the preparatory course for entrance to Gallaudet College for the Deaf in Washington, D. C. We now have two of our former pupils in Gallaudet seeking a higher education.

INDUSTRIAL TRAINING

While progress is being made in the academic work, progress is likewise being made in the industrial work, although we have not always been able to give that department the recognition which it deserves. While the academic work is stressed, we also consider the trades teaching as of equal importance. This department has functioned well during the past year, and, as an added feature of our Commencement Exercises, an industrial exhibit was put on at the same time. We were well pleased with the way in which the exhibit was received.

One new trade has been added to our course during the past year, namely, the baking or bakers' trade. We already had the "set-up" for it, as we have a splendid bakery shop and a baker who does all the baking for the School. In this way the trade was added to our course without any additional expense, and those who take that trade learn it in a most practical manner.

OUR DAIRY HERD

Many years ago a dairy herd was established at the School to furnish nice, wholesome milk for our pupils. Since it was established, the herd has been developed until we have one of the finest dairy herds in the State of its size, in the point of milk production. In fact, according to the testing association, our herd stood second in the United States and Canada in milk production.

We exhibited a few animals at the State Fair in Pueblo and received two First Premium ribbons, and we also had the Grand Champion cow of the show.

We hope that the work done in this field reflects the character of the work in a general way as it is carried on at the School.

In normal times, the pupils who have gone out from the School

BRUSH MAKING—ONE OF THE LATEST TRADES FOR THE BLIND

have usually done well in their various walks of life, and those who have gone on to college for their higher education have invariably made fine scholastic records, indicating that their foundation work had been well laid.

HEALTH

In a general way the health of our children was good throughout the year. But with so many children coming to us at such an age that they have not yet had many of the children's diseases, it can readily be seen that it would be most difficult to keep some of the contagious diseases from being brought into the School. And in some cases it is difficult to discover these diseases before the other pupils have been exposed to them. When a case is discovered, it is promptly isolated and in many instances prevents the spread of the disease. Each case, however, is given the best of care in our School hospital, where a trained nurse is in charge at all times. The health of our children is usually that of the active normal child.

I respectfully refer you to the attached report of the medical staff for the detailed statement of the health of our pupils during the year.

APPRECIATION

This brings my part of this report to a close, and it would not be complete without a word of appreciation from me. I want to express my appreciation to the Board of Trustees for the manner in which they have supported me in all matters pertaining to the affairs of the School, and at the same time thank the other officials of the State for their splendid cooperation at all times.

I am also grateful to the teachers and officers of the School for their devoted efforts to make the School what it should be.

There are many individuals and many organizations that take an active interest in the welfare and pleasure of our pupils. The musical organizations are always mindful of the pleasure that they can bring to the members of the Department for the Blind. The managers of the local picture houses have also been very kind to our students. The Lions' Club continues to show an active interest in the welfare of our pupils in the Department for the Blind, and other organizations have been thoughtful of us.

We want to thank these individuals and organizations on behalf of the pupils and the School for their interest.

Respectfully submitted,

A. L. BROWN,
Superintendent.

July 1, 1934.

Report of the Director of Music

A. L. Brown,
Superintendent.

DEAR SIR:

The pupils in the Music Department for the year 1933-1934 have shown a great deal of interest in their work and have made splendid progress.

The Braille classes for beginners were continued this year. The monthly music programs were given throughout the year, which gives the pupils something definite to work for and is splendid experience.

The closing programs consisted of one by the Junior division, one by the Intermediates, and one by the Senior division. The pupils took part on seventeen programs other than the monthly programs and those at the close of school.

An opportunity was given the students to attend two courses of Artist Concerts, and also some other entertainments; these privileges being of educational value, as well as most enjoyable.

The number of pupils enrolled in the department follows:

Piano	30
Organ	2
Violin	10
Harmony	2
Theory	2
History	2
Orchestra	8
Senior Choir	21
Junior Choir	24
Primary Choir	11
Vocal	3
Saxophone	2
Cello	2
Tuning	5

Respectfully submitted,

Mabel L. Hemus,
Director of Music.

Report of the Medical Staff

A. L. Brown,
Superintendent.

DEAR SIR:

The staff of physicians for the School consists of three—an eye specialist; a nose, throat and ear specialist; and an internist.

The new pupils admitted to the School were routinely examined to discover any physical defects in order that the pupils might be better prepared for their regular school work. Each new pupil was vaccinated and each had a blood Wasserman.

The institution is provided with a hospital. There are three wards in the main hospital and an annex of three special wards for quarantine purposes. The entire capacity of the hospital is approximately thirty-six. A registered nurse, Miss Estella Thomas, directed by the visiting staff, is in charge.

During the term there were admitted to the hospital three hundred ninety-nine bed patients.

Pupils requiring refraction were attended to. All minor ailments and physical defects were given special attention for the general improvement of the health conditions. There were ten children vaccinated. There were sixteen children immunized with diphtheria toxin-anti-toxin.

Dispensary work, including minor accidents, treating eyes, ears, nose, throats, cuts and bruises, etc., averaged forty-five cases daily.

There was one death; cause, pneumonia.

Contagious diseases:		Pharyngitis	5
Pertussis	30	Sore arms from vaccination.....	5
Scabies	12	Sprains	4
Scarlet fever	7	Conjunctivitis	3
Fracture	1	Dysmenorrhea	3
Coryza	135	Eye injury	3

LIBRARY FUND

This fund consists of \$10,000 donated by General William J Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Heights Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

TABLE V

Showing kinship as reported in 1056 cases of deafness and 466 cases of blindness.

DEAF

In thirty-eight (38) cases of deafness, parents were related before marriage.

Twenty-three (23) deaf pupils have deaf parents.

One hundred sixty-two (162) deaf pupils have deaf relatives.

BLIND

In sixteen (16) cases of blindness, the parents were related before marriage.

Nine (9) blind pupils have blind parents.

Forty-three (43) blind pupils have blind relatives.

Colorado School for Deaf and Blind

HISTORICAL

The "Colorado Institute for Deaf Mutes" was founded in 1874, while the State was yet a Territory; the Department for the Blind being added in 1883. There were present on the opening day six pupils, the home of the School being a small frame building long since torn down. Up to the present time some 1056 deaf persons and 466 blind persons have been enrolled as pupils, the number of both in attendance the present session (1933-1934) being 268. The valuation of buildings and equipment is \$1,105,123.60; adding to this the value of the land and live stock brings our total valuation to \$1,155,126.10.

CHARACTER OF THE SCHOOL

The Colorado School for Deaf and Blind is, as the name implies, a school pure and simple. It was established in accordance with the purpose of the State to give to every child within her boundary capable of taking it a common school education. It is not in any sense an "asylum" or "home" for afflicted, it is not a hospital for the care and treatment of the eyes and ears, and it is not a place for the detention and care of the imbecile. A child so unsound physically as to require constant care, or so backward mentally as to make no progress in the literary department, cannot be retained in the School.

COURSE OF STUDY

The course of study for deaf covers about the same ground as the public schools of the State. The blind, to whom language presents no difficulty, are given a very thorough high school course. To secure the best results in both instances it is necessary that the child be entered as soon as it becomes of school age, and that the attendance be regular and continuous throughout the entire course.

METHOD OF INSTRUCTION

In the Department for the Blind, methods are those approved by the best schools of the country. Revised Braille is used in the greater part of the literary work and in music, but all are taught to write script and operate typewriters.

In the Department for the Deaf all new pupils are placed in oral

classes, where the attempt is made to teach them to speak and read the lips. Those who have learned to talk before losing their hearing, and some of those born deaf, do well under this method, and such are kept in the oral department during their stay here. All school work with these pupils is done orally, so there is no danger of their forgetting how to talk, as some parents fear. There are, however, some deaf children who can never learn to speak well enough to make it of practical value, and these are taught by use of the manual alphabet and by writing.

TRADES

In addition to work in the literary department, the School undertakes to give each pupil such knowledge of some trade as may be a help in gaining a livelihood after graduation. To this end, from one to three hours per day through the entire course is spent in the shops under competent instructors. The trades taught at present are:

For deaf boys—Baking, barbering, carpentry, gardening, painting, printing, shoemaking and sloyd.

For deaf girls—Domestic arts, dressmaking and sewing.

For blind boys—Broom making, brush making, piano tuning, shoemaking, rug, carpet and hammock weaving.

For blind girls—Domestic arts, dressmaking, knitting, rug weaving and sewing.

TERMS OF ADMISSION

All deaf and blind persons, of sound mind and body, between the ages of six and twenty-one years, actual residents of Colorado, are entitled to admission to the School free of charge. This includes all those whose hearing or sight is so impaired as to prevent them from obtaining an education in the public schools. Tuition, board and washing, medicines and medical attendance, books and apparatus used in teaching—in short, everything is furnished free of charge, except clothing and traveling expenses. In cases of absolute poverty, the respective counties assume expense of traveling and clothing. While no persons are taken into the School for the purpose of giving medical treatment, all children coming to us are examined by a specialist, and treatment is given wherever it is needed. The sick have the very best care and attention.

SESSIONS

The School opens in September on the first Wednesday after Labor Day, and closes on the first Wednesday of the following June, thus giving the pupils nine months at the School and three

months at home each year. All pupils must be promptly removed at the close of the session.

GENERAL REMARKS

As has been said before, the Colorado School for Deaf and Blind is not an asylum or a hospital for the care of afflicted children. Parents desirous of entering children should carefully observe the following:

First—A child once entered is expected to remain until the close of the session, and cannot be withdrawn without the consent of the Superintendent. Pupils withdrawn without his consent forfeit the right to the privileges of the School unless permitted to return by special action of the Board of Trustees. This, of course, does not apply to those who may prove ineligible because of physical or mental deficiency. Such pupils must be removed as soon as the deficiency is established beyond question.

Second—All pupils expecting to attend school should be sent promptly on the opening day, and those not so entered, except for such reasons as may be deemed valid by the Superintendent, shall be denied admission until the opening of the next year.

Third—All children should, if possible, be vaccinated before entering.

Fourth—Parents must furnish postage in all cases, and may hear from their children in proportion to the amount furnished. The session lasts about forty weeks. Parents of the small children sending us sixty cents (60c) may hear from their children once a week—ten letters and thirty postals. Those who do not furnish postage will not hear, except in case of illness, when a report is made daily until the child is out of danger.

Fifth—A contingent fee of \$10.00 must be deposited in every case to purchase such articles of clothing, shoes, etc., likely to be needed during the session. A strict account will be kept of all expenditures and an itemized statement made at the close of the school year. Clothing or shoes may be sent from home or purchased here by us, but nothing will be furnished without the cash before hand, except in case of county pupils.

Sixth—All clothing should be of good quality and well made, with the buttons sewed on tightly. Good shoes are cheapest. Woolen underwear and woolen stockings are not needed unless the child be very delicate. In no case purchase so-called fleece-lined underwear. It does not wash well. A good quality of balbriggan

is best. Our children romp and play a great deal, as all healthy children do, and are consequently very hard on clothing. All articles should be plainly marked. The best way is to sew the name in turkey red, which will last as long as the garment.

Seventh—Parents will be expected to pay for property wantonly destroyed by their children. We find that nothing makes children so careful as to know that the parent is held responsible for their carelessness, and parents are as much interested as we are in raising their children to a right appreciation of the responsibilities in life.

Eighth—While we are always glad to have parents visit their children, they cannot be entertained at the School. Parents are at liberty to have their children stay downtown with them over night, but not to interfere with the class work when it can be helped.

Ninth—All packages sent should be fully prepaid, and, if you wish receipt acknowledged, should be sent in care of the Superintendent. All letters to pupils should be addressed directly to them in care of the School.

Tenth—No attention will be paid to any complaint or any communication of any kind not addressed to the Superintendent, or the Board of Trustees. All money should be sent by express, money order, or registered letter, directly to the Superintendent, who will at once acknowledge receipt of same.

Eleventh—Teachers are sent out to the most important points at opening and close of the School to assist pupils in making changes and accompany them to school.

Twelfth—Please bear in mind that the School is more than a quarter of a mile from the nearest depot, and a full mile from the other one. Buses run within a block of the School.

A CHAMPION COW

List of Clothing

FOR THE GIRLS

- | | |
|--|------------------------------------|
| 1 woolen dress, for best. | 1 kimona. |
| 1 light-weight dress, for best. | 1 comb. |
| 4 wash dresses, for school. | 1 hair brush. |
| 1 blue serge skirt. | 1 tooth brush. |
| 2 white middies. | 1 nail brush. |
| 1 white apron, sleeveless. | 6 wash cloths |
| 2 colored aprons, sleeveless. | 2 pairs shoes. |
| 2 white cotton underskirts, not heavy. | 1 bunch shoe strings. |
| 2 colored cotton underskirts, not heavy. | 3 union suits, light. |
| 5 pairs black sateen bloomers. | 3 undervests. |
| 3 pairs bloomers like dresses (younger girls). | 6 pairs stockings. |
| 1 pair white sateen bloomers. | 2 pairs stocking supporters. |
| 3 underwaists. | 3 night dresses. |
| 1 pair bedroom slippers. | 12 handkerchiefs. |
| 1 pair rubbers. | 2 coats, one heavy, one light. |
| *1 gymnasium suit. | 1 sweater. |
| 1 pair gymnasium shoes. | 2 hats, one winter and one summer. |
| 3 brassieres. | 1 cap. |
| | 1 pair gloves. |

*Send pieces like dresses and aprons.
Put pockets in both dresses and aprons.*

FOR THE BOYS

- | | |
|--|--------------------------------------|
| 2 strong suits. | 1 dozen shoe strings. |
| 2 extra pairs of pants. | 1 pair rubbers. |
| 3 night shirts or 3 pairs pajamas. | 6 neckties. |
| 3 suits light-weight underwear. | 2 hats or caps. |
| 2 pairs strong shoes. | 6 pairs hose, best. |
| 1 pair suspenders. | *1 gymnasium suit. |
| 6 shirts (older boys). | 1 pair gymnasium shoes. |
| 8 collars (soft) for older boys. | 12 handkerchiefs. |
| 1 tooth brush. | 2 pairs overalls or coveralls. |
| 1 hair brush. | 2 pairs elastics or hose supporters. |
| 1 comb. | 1 pair bedroom slippers. |
| 1 belt. | 1 pair mittens or gloves. |
| 6 waists (4 dark, 2 white) younger boys. | |

Mark all clothing with name in full.

*We much prefer getting the gymnasium suits, etc., at the School. The outfit for girls costs from \$3.50 to \$4.25, and for boys from \$1.80 to \$2.25.

THE SCHOOL BUILDING

Report of the Board of Trustees

*To His Excellency,
Hon. Edwin C. Johnson,
Governor of Colorado.*

SIR:

It is again my pleasure, as well as my duty, to present to you a report of the activities of the Colorado School for Deaf and Blind, this being the sixty-first report of the School.

From a very small beginning, with only five pupils sixty-one years ago, the School has grown until we report this year an enrollment of two hundred and fifty-five pupils. With the growth in enrollment, the School has also grown in service and usefulness until Colorado can boast of having an excellent school—one of the best in our country.

The School plant is kept in a good state of repairs, but I cannot refrain from keeping before our minds the necessity of replacing Girls' Hall. This building is not as substantial as it should be and is not a fire-proof building. We are constantly trying to build up a reserve fund so that this building may be replaced in due course of time.

As to the detail work of the School and the financial statement, I respectfully refer you to the Superintendent's report.

The standard of work which one would expect has been maintained at the School and the results have been gratifying.

My report would not be complete without referring to the excellent services of the teachers and officers who not only perform their prescribed duties, but manifest a keen personal interest in the welfare of each individual child.

Respectfully submitted,

July 1, 1935.

ASA T. JONES,
President, Board of Trustees.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN :

It is now my pleasure to submit to you the annual report of the Colorado School for Deaf and Blind for the year ending June 30, 1935.

For the past two or three years there has not been a great variation in the number of pupils enrolled in our School; however, the general tendency has been upward.

During the year just closed there were enrolled in the School 255 pupils, as follows:

Deaf pupils Boys, 117; girls, 75. Total, 192
Blind pupils Boys, 37; girls, 26. Total, 63

The enrollment by counties is as follows:

County	Deaf	Blind	County	Deaf	Blind
Adams	4		Jefferson	3	1
Alamosa	2		Kit Carson	1	2
Archuleta	1		La Plata	5	1
Baca	1		Larimer	4	4
Bent	3	1	Las Animas	5	3
Boulder	4	5	Lincoln	2	1
Chaffee	5		Logan	1	1
Cheyenne	2		Mesa	5	2
Clear Creek	1		Montezuma	1	
Conejos	1	1	Montrose	3	
Costilla	1	1	Morgan	2	
Crowley	1		Otero	2	1
Custer		1	Park	1	
Delta	2	1	Prowers	1	
Denver	19	12	Pueblo	14	4
Douglas		1	Rio Grande	3	2
Eagle		1	Saguache	3	
Elbert	3		San Juan	1	
El Paso	32	5	Washington	3	
Fremont	3	2	Weld	21	2
Garfield	1	1	Yuma	2	1
Grand	1		State of Wyoming	16	3
Gunnison	2	1			
Huerfano	4	2	Total	192	63

CHANGES IN STAFF

After the close of the 1935 school year, Mrs. Margaret Smith, who had been with the School for seventeen years and had ad-

vanced from teacher to Supervising Teacher of the Primary Department for the Deaf, resigned to accept a similar position in an Oakland, California, school at a much better salary. Mrs. Smith's services were appreciated and will be missed. However, we were fortunate in having on our own staff an experienced person who is well qualified to take her place. Mrs. Belle W. Stewart from our teaching staff was appointed to fill the vacancy.

Miss Elsie Spicer, an experienced teacher of the deaf, was appointed to fill the vacancy created by the advancement of Mrs. Stewart.

Miss Dorothy Clark, who had been teaching one of our manual classes, resigned to be married. It is hoped that we will be able to absorb her work if the enrollment is such that we can do so. If the enrollment is such that this cannot be done, it will be necessary to appoint someone in her place.

GRADUATES

The graduating exercises were held Monday evening, June 3, 1935, and our Governor, the Honorable Edwin C. Johnson, had planned to be with us to deliver the diplomas to our graduates, but was prevented from doing so on account of the recent Colorado Springs flood. He found himself tied up on a committee planning relief for the flood victims. We were all sorry not to have him with us, but in his absence the diplomas were delivered by Mr. Asa T. Jones, President of the Board of Trustees.

It so happened that there was no graduating class from the Department for the Deaf.

The following pupils were awarded diplomas from the Department for the Blind:

Dorothy Josephine Cutting, Fort Collins.

Mary Alice Miracle, Glade Park.

Clifford Nelsen, Vona.

Frank Tortorelli, Trinidad.

Dorothy Josephine Cutting received a diploma in music and Clifford Nelsen and Frank Tortorelli received diplomas in piano tuning.

The Baccalaureate Sermon was preached by Dr. Wilbert Dowson, pastor of the First Methodist Church of Colorado Springs.

In connection with the graduating exercises an exhibit was held showing samples of the types of work done in the various trades as taught in our Industrial Department.

SCHOOL WORK

The school work for the year has been satisfactory and it is our

constant desire to keep our School abreast of the times by employing the best methods approved by our profession. For this reason we try to keep in touch with the best educational centers and attend conventions pertaining to our particular kind of work.

In keeping with this policy, nine of our teachers also attended the Convention of Instructors of the Deaf in Jacksonville, Illinois, in June.

A number of our teachers are taking extension courses and some have been attending summer school.

REPAIRS AND IMPROVEMENTS

To keep up a plant of this size, it requires much care and attention with the various departments to consider.

During the year the usual repairs and improvements were made. Our Chapel, or Auditorium, had been in bad repair for some time and the ceiling and upper side walls in need of immediate attention, the plaster being in such condition that there was danger of it falling in places. To correct the trouble, the ceiling and upper side walls were replastered and the Chapel redecorated so that it is now safe and gives a pleasing appearance.

Our pipe organ, which is a good one but which had not been overhauled for about twenty years, was in such condition that it would sometimes stop in the middle of our services. The organ has now been overhauled and electrified and it is estimated that it will be good for twenty-five years before it will need this kind of attention again.

HEALTH

Along with the public schools and other schools throughout the country, we had our share of measles. Medical men tell us that there were more cases of measles in the United States last year than there had been in any one year for fifty years. Fortunately the cases were light with our pupils and there were no bad results from them.

There was also an epidemic of scarlet fever in the state, but we had only a few cases.

Aside from these contagious diseases, the health of our children ran along in a rather normal way.

THANKS

We are ever indebted to the many friends of the School who are so very thoughtful of our pupils. Many happy times have been brought to them through their friendly and kindly interest.

We are indebted to a number of friends who made it possible

for our pupils to attend the many splendid concerts given in the city.

For these pleasures we are particularly indebted to Mrs. F. M. P. Taylor and Mrs. H. I. Sparey.

Mr. L. A. Starsmore, manager of the Chief Theatre, has caused our students to have many happy hours. We are also indebted to Mr. J. E. Tompkins, manager of the other Colorado Springs theatres, for courtesies extended to us.

The Lions Clubs of Colorado, and the Club of Colorado Springs in particular, are continually doing very worth-while things for our pupils in the Department for the Blind. They have also extended aid to some of our pupils after they got out of school.

We are truly grateful for our friends and the many courtesies that have been extended to our pupils.

Respectfully submitted,

A. L. BROWN,
Superintendent.

July 1, 1935.

Report of the Director of Music

A. L. Brown,
Superintendent.

DEAR SIR:

The year 1934-1935 was a very successful one in the Music Department. The pupils took a great deal of interest in the work and made splendid progress. The Braille classes for beginners were continued. A music recital was given each month, giving the pupils valuable experience playing before an audience. At the close of the year three public programs were given—one by the Junior division, one by the Intermediate, and one by the Senior division.

The pupils took part on nineteen programs in the city, other than the monthly programs and those at the close of school.

The pupils were given many opportunities to attend Artist Concerts and other entertainments, these privileges being of educational value, as well as most enjoyable.

The number of pupils enrolled in the department follows:

Piano	28
Organ	3
Violin	9
Harmony	2
History	2
Orchestra	10
Saxophone	1
'Cello.....	2
Vocal	3
Tuning	7
Senior Choir	23
Junior Choir	19
Primary Choir	11

Respectfully submitted,

Mabel L. Hemus,
Director of Music.

Report of the Medical Staff

A. L. Brown,
Superintendent.

DEAR SIR:

The staff of physicians for the School consists of three—an eye specialist; a ear, nose and throat specialist; and an internist.

The new pupils admitted to the School were routinely examined to discover any physical defects in order that the pupils might be better prepared for their regular school work. Each new pupil was vaccinated and each had a blood Wasserman.

The institution is provided with a hospital. There are three wards in the main hospital and an annex of three special wards for quarantine purposes. The entire capacity of the hospital is approximately thirty-six. A registered nurse, Miss Estelle Thomas, directed by the visiting staff, is in charge.

During the term there were admitted to the hospital four hundred eighty-seven bed patients.

Pupils requiring refraction were attended to. All minor ailments and physical defects were given special attention for the general improvement of the health conditions. There were fifteen children vaccinated. There were twenty children given immunization against diphtheria.

Dispensary work, including minor accidents, treating eyes, ears, nose, throats, cuts and bruises, etc., averaged forty cases daily.

There were no deaths.

Contagious diseases:		Scabies	13

Balance on hand July 1, 1935.....	\$ 79,702.75

LIBRARY FUND

This fund consists of \$10,000 donated by General William J. Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Heights Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

1934

RECEIPTS

July 1.....	Balance on hand.....	\$1,579.80

Report of the Board of Trustees

*To His Excellency,
Hon. Edwin C. Johnson,
Governor of Colorado.*

SIR:

It gives me pleasure, as President of the Board of Trustees of the Colorado School for Deaf and Blind, to present the sixty-second report of the activities of the School, ending June 30, 1936.

In the matter of enrollment, there was an increase of a little over nine percent over the preceding year, bringing the enrollment for this period up to 278 pupils. This is the highest enrollment the School has ever had.

There has been some variation in this respect from year to year, but the general tendency has been upward.

The term of office as Trustee of our School of Mr. Earl R. Hoage terminated April 14, 1935, and the appointment of Mrs. Ruth J. Moore, of Denver, to succeed Mr. Hoage, was confirmed by the Senate.

I am glad to report that the work of the School continues to go forward in a satisfactory manner and the welfare of those entrusted to our care is given most careful consideration.

We are continuing our efforts to create a balance so that a Girls' Hall may be built to replace the present one, which is not only out of date, but is also a fire hazard, which condition should not exist in a building used for the housing of children with the handicap of deafness or blindness.

In regard to the financial statement and detail work of the School, I respectfully refer you to the Superintendent's report.

I wish to commend the teachers and officers of the School on the splendid work they are doing.

Respectfully submitted,

July 1, 1936.

ASA T. JONES,
President Board of Trustees.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN:

Once again it is my duty and pleasure to submit to you an annual report of the Colorado School for Deaf and Blind. This time it is for the year ending June 30, 1936.

Again I must report to you a new high in the number of pupils enrolled in our School for any one year. Each year we think we have reached the peak, but the enrollment seems to continue gradually upward.

During the year which just closed on June 30, 1936, there were enrolled in the school 278 pupils, which was a little over a nine percent increase over the enrollment of the previous year.

The enrollment was classified as follows:

Deaf pupils Boys, 133; Girls, 83. Total, 216
Blind pupils Boys, 40; Girls, 22. Total, 62

The following is the enrollment by counties:

County	Deaf	Blind	County	Deaf	Blind
Adams	4		Kit Carson	1	2
Alamosa	2		La Plata	4	1
Arapahoe	2		Larimer	3	1
Archuleta	1		Las Animas	6	2
Baca	2		Lincoln	2	1
Bent	4	1	Logan	2	1
Boulder	3	3	Mesa	6	3
Chaffee	7		Montezuma	1	
Cheyenne	2		Montrose	3	
Clear Creek	2		Morgan	3	
Conejos	2	2	Otero	2	1
Costilla	2	1	Park	1	
Crowley	1		Prowers	2	
Custer		1	Pueblo	16	4
Delta	3	1	Rio Grande	4	
Denver	24	13	Routt	1	
Douglas		1	Saguache	2	
Eagle		2	San Juan	2	
Elbert	3		Teller	1	
El Paso	30	6	Washington	2	
Fremont	3	3	Weld	22	1
Garfield	1	1	Yuma	2	1
Gunnison	2		State of Wyoming	18	5
Huerfano	6	3			
Jefferson	4	1	Total	216	62

CHANGES IN STAFF

It was hoped at the close of school last year that we could absorb the work of Miss Clark, who resigned to be married, but when school opened in the fall the enrollment was such that we found it was necessary to appoint someone to take her place. Mr. Frank Galluzzo, who was well trained and well recommended, was appointed to take her place and also help out with boys' athletics.

During the year Miss Margaret Nelson asked to be relieved to be married, but remained with us until the end of the year.

Miss Dorothy R. Ziebach, who had been with us for several years, resigned to accept a much more remunerative position at teaching in one of the California schools.

Miss Caroline Lakin, who had been director of girls' athletics for nine years and who had been very successful in this field, resigned to accept a position in Bismark, North Dakota, where she could be with her sister.

During the year our enrollment was such that we found it necessary to employ a substitute teacher to take charge of a class which was formed because of the increased enrollment. Mrs. Bertha Milligan, who had taught for us before being married, consented to take over the work until the end of the year.

To fill the necessary places which were left vacant in the literary teaching staff, Miss Willie Mae King, Miss Evelyn M. Veitch and Miss Margaret Moeller have been appointed. Each one of these ladies has had good training and each has had several years of teaching experience.

Miss Gladys Starkweather, a graduate of the Sargent College of Physical Education, has been appointed director of girls' athletics to fill the place left vacant by the resignation of Miss Lakin.

GRADUATES

The graduating exercises this year were held on Monday evening, June 1st, in our School Auditorium before a large audience. It is gratifying to have so many interested in our pupils and in the welfare of the School.

There were fourteen graduates this year, twelve from the Department for the Deaf and two from the Department for the Blind. There were only two girls in the class. All of these young people were prepared to do some particular kind of work very well and we were pleased that so many of them already had jobs lined up before school closed so that they were sure of immediate employment at the close of school. We believe these young people are to be congratulated when we consider with what difficulty positions are secured at this time.

We were sorry not to have our Governor, the Honorable Edwin C. Johnson, with us for the occasion of our graduation exercises, but he was detained at the last minute by state business. It had been his intention to deliver the diplomas to the graduates in person, but in his absence they were delivered by Mr. Asa T. Jones, President of the Board of Trustees.

Previous to the presentation of diplomas, the special prizes were awarded.

The following graduates who had completed the prescribed course of study were awarded diplomas:

DEPARTMENT FOR THE DEAF

Eva L. Arnold, Las Animas.
Anna I. Jorgensen, Grand Junction.
Charles D. Billings, Greeley.
Herman R. Butler, Colorado Springs.
Lorenz W. Downey, Pueblo.
Edward E. Hendricks, Akron.
Raymond J. Hoza, Florence.
Alfred E. Kirchmar, Colorado Springs.
Joseph B. Ranney, Denver.
Lloyd V. Revelle, Powell, Wyo.
Joseph E. Stotts, Delta.
John H. Street, Rock River, Wyo.

DEPARTMENT FOR THE BLIND

Elmer H. Blunn, Pueblo.
Delbert Nelsen, Vona.

Certificates in tuning were also awarded to Elmer Blunn and Delbert Nelsen.

An industrial exhibit, showing the products from the various trades shops of the School, was presented at the time of the Commencement Exercises again this year, to show the results of the work of this department.

The Baccalaureate Services were held in our School Chapel at three o'clock Sunday, May 30th, and the sermon was preached by the Rt. Rev. Fred Ingley, Bishop Coajutor, Diocese of Colorado.

MAINTENANCE

In addition to the usual every-day repairs and upkeep, the playground and lawn equipment has been overhauled and repainted. The woodwork inside and outside of Palmer Hall has been put in order and given a fresh coat of paint.

The School Building, which is a rather large one, had not been

redecorated for a great many years and was showing need of attention. The plaster throughout this building was patched wherever necessary and otherwise put in good shape.

Under the direction of our instructor in painting and his class the walls and ceilings were thoroughly washed of the old kalsomine, and all schoolrooms and hallways were kalsomined. The woodwork, which has always shown the natural grain of the wood, was also cleaned and then varnished. From this standpoint the building now shows a rather new appearance and is in good repair.

The offices and hallways of the Administration Building have been put in condition and repainted.

With the number of buildings we have to keep up, it is rather a continuous task to keep them in proper repair; however, we feel that it is more economical to try to keep them in repair as we go along than it is to try to restore them after they have deteriorated to too great an extent.

PROFESSIONAL GROWTH

While we have a well-balanced faculty, all of whom have had several years of experience, there are always new methods and new phases coming up in the field of education, some of which are very worthy of consideration. Our people have always tried to embrace these forward steps that are found practical, and in order to keep abreast of the times a large percent of our faculty have taken extension courses and have also attended summer school. Others have taken special work along our particular line, and still others make it a practice to attend our educational conventions, where the best methods of instruction are discussed and demonstrated.

Since our methods are very technical, these meetings are found to be very beneficial. With the attitude which our people have towards the problem, we believe the School will continue to enjoy the professional standing which is rightfully due the people of Colorado.

RETIREMENTS

By an act of the Legislature, the State Retirement Fund was created so that certain employees, under certain requirements, could retire beginning August 1, 1936. Two of our employees who are eligible have signified their intentions of retiring.

Mr. W. C. Robinson, who has been known to the pupils of our School, very favorably, as cook for the last twenty-four years, expects to retire on August 1st. Mr. Robinson has been very faithful and prompt—to the satisfaction of our children—over all these years and he has more than earned the rest which is to

be his. Our very best wishes will accompany him when he retires.

Miss May F. Conley, who plans to retire on September 1, 1936, took charge of the books, and all of the office work twenty-seven years ago. From the day that she took charge until the present time she has been absolutely faithful to the task before her, which she always took very seriously. Accuracy has always been her watchword and during a period of twenty years we can remember of only one mistake getting past her, and we have some fears that we were somewhat responsible for that one time. We do not believe that the State has had a more faithful employee. We shall miss her services when she retires, but our very best wishes go with her. The leisure which is coming to her is well deserved.

APPRECIATION

We again have the privilege of expressing our appreciation to our many friends who have shown an interest in our School and have extended courtesies to our pupils. In last year's report we mentioned a number of our friends in a personal way. We are still appreciative of their continued interest.

We are also appreciative of the interest of the officials of the State and their courteous manner in dealing with us.

This report would not be complete without an expression of appreciation to the Board of Trustees for their splendid support and interest, and to the faculty and officers for not only their faithfulness to duty, but also for their sincere interest in the welfare of the pupils and the School.

Respectfully submitted,

July 1, 1936.

A. L. BROWN,
Superintendent.

Report of the Director of Music

A. L. Brown,
Superintendent.

DEAR SIR:

The year 1935-1936 was a very gratifying one in the Music Department. The pupils seemed much interested in their work and made splendid progress. The Braille classes for beginners were continued. A program, by the pupils, was given twice each month, giving the pupils valuable experience playing before an audience.

At the close of the year three public programs were given, one by the Junior division, one by the Intermediate and one by the Senior division.

The pupils took part on twenty-five programs in the city, other than those already mentioned.

Many opportunities to attend Artist Concerts and other entertainments were extended to the pupils, these privileges being of educational value and most enjoyable to them.

The number of pupils enrolled in the department follows:

Piano	30
Organ	3
Violin	10
Harmony	2
History	1
Theory	1
Orchestra	10
'Cello	2
Vocal	1
Tuning	6
Senior Choir	25
Junior Choir	22
Primary Choir	11

Respectfully submitted,

MABEL L. HEMUS,
Director of Music.

Report of the Medical Staff

A. L. Brown,
Superintendent.

DEAR SIR:

The staff of physicians for the School consists of three—an eye specialist; an ear, nose and throat specialist, and an internist.

The new pupils admitted to the School were routinely examined to discover any physical defects in order that the pupils might be better prepared for their regular school work. Each new pupil was vaccinated and each had a blood Wasserman.

The Institution is provided with a hospital. There are three wards in the main hospital and an annex of three special wards for quarantine purposes. The entire capacity of the hospital is approximately thirty-six. A registered nurse, Miss Estelle Thomas, directed by the visiting staff, is in charge.

During the term there were admitted to the hospital three hundred forty-one bed patients.

Pupils requiring refraction were attended to. All minor ailments and physical defects were given special attention for the general improvement of the health conditions. There were eighty-three children vaccinated for small pox. There were twenty-four children given immunization against diphtheria.

Dispensary work, including minor accidents, treating eyes, ears, nose, throats, cuts and bruises, etc., averaged forty cases daily.

There were no deaths.

Contagious diseases:

Chicken pox	10
Mumps	4
Scarlet fever	14
Appendicitis (chronic)	1
Appendicitis (surgical)	3
Bilious	3
Cardiac infection	3
Cervical adenitis	1
Chorea	1
Circumcisions	2

Constipation	10
Corneal ulcers	1
Coryza	80
Croup	2
Earache	7
Ear abscess	3
Eye injury	1
Fractures	3
Headache	18
Impetigo	2
Indigestion	37

Infections	9	Scabies	12
Observation	7	Sprains	3
Eyelitis	1	Tonsillitis	76
Pneumonia	2	Miscellaneous	14
Rheumatism	1		

J. H. BROWN, M. D., *Internist, Chief of the Staff.*

LIBRARY FUND

This fund consists of \$10,000 donated by General William J. Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Height Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

BLIND

In sixteen (16) cases of blindness, the parents were related before marriage.

Nine (9) blind pupils have blind parents.

Forty-five (45) blind pupils have blind relatives.

Colorado School for Deaf and Blind

HISTORICAL

The "Colorado Institute for Deaf Mutes" was founded in 1874, while the State was yet a Territory; the Blind Department being added in 1883. There were present on the opening day six pupils, the home of the School being a small frame building long since torn down. Up to the present time some 1110 deaf persons and 487 blind persons have been enrolled as pupils, the number of both in attendance the present session (1935-1936) being 278. The valuation of buildings and equipment is \$1,102,518.69; adding to this the value of the land and live stock brings our total valuation to \$1,152,143.69.

CHARACTER OF THE SCHOOL

The Colorado School for Deaf and Blind is, as the name implies, a school pure and simple. It was established in accordance with the purpose of the State to give to every child within her boundary capable of taking it a common school education. It is not in any sense an "asylum" or "home" for afflicted, it is not a hospital for the care and treatment of the eyes and ears, and it is not a place for the detention and care of the imbecile. A child so unsound physically as to require constant care, or so backward mentally as to make no progress in the literary department, cannot be retained in the School.

COURSE OF STUDY

The course of study for deaf covers about the same ground as the public schools of the State. The blind, to whom language presents no difficulty, are given a very thorough high school course. To secure the best results in both instances it is necessary that the child be entered as soon as it becomes of school age, and that the attendance be regular and continuous throughout the entire course.

METHOD OF INSTRUCTION

In the Department for the Blind methods are those approved by the best schools of the country. Revised Braille is used in the greater part of the literary work and in music, but all are taught to write script and operate typewriters.

In the Department for the Deaf all new pupils are placed in oral classes, where the attempt is made to teach them to speak and read the lips. Those who have learned to talk before losing their hearing, and some of those born deaf, do well under this method, and such are kept in the oral department during their stay here. All school work with these pupils is done orally, so there is no danger of their forgetting how to talk, as some parents fear. There are, however, some deaf children who can never learn to speak well enough to make it of practical value, and these are taught by use of the manual alphabet and by writing.

TRADES

In addition to work in the literary department, the School undertakes to give each pupil such knowledge of some trade as may be a help in gaining a livelihood after graduation. To this end, from one to three hours per day through the entire course is spent in the shops under competent instructors. The trades taught at present are: *For the blind boys*—Broom making, brush making, piano tuning, shoemaking, rug, carpet and hammock weaving. *For the deaf boys*—Baking, barbering, carpentry, gardening, painting, printing, shoemaking and sloyd. All girls have regular instruction in sewing, knitting, crocheting, and such general housework as is involved in the care of their own rooms. A selected number are given instruction in dressmaking. All older girls, both deaf and blind, have lessons in cooking under a trained instructor.

TERMS OF ADMISSION

All deaf and blind persons, of sound mind and body, between the ages of six and twenty-one years, actual residents of Colorado, are entitled to admission to the School free of charge. This includes all those whose hearing or sight is so impaired as to prevent them from obtaining an education in the public schools. Tuition, board and laundry, medicines and medical attendance, books and apparatus used in teaching—in short, everything is furnished free of charge, except clothing and traveling expenses. In cases of absolute poverty, the respective counties assume expense of traveling and clothing. While no persons are taken into the School for the purpose of giving medical treatment, all children coming to us are examined by a specialist, and treatment is given wherever it is needed. The sick have the very best care and attention.

SESSIONS

The School opens in September on the first Wednesday after

Labor Day, and closes on the first Wednesday of the following June, thus giving the pupils nine months at the School and three months at home each year. All pupils must be promptly removed at the close of the session.

GENERAL REMARKS

As has been said before, the Colorado School for Deaf and Blind is not an asylum or a hospital for the care of afflicted children. Parents desirous of entering children should carefully observe the following:

First—A child once entered is expected to remain until the close of the session, and cannot be withdrawn without the consent of the Superintendent. Pupils withdrawn without his consent forfeit the right to the privileges of the School unless permitted to return by special action of the Board of Trustees. This, of course, does not apply to those who may prove ineligible because of physical or mental deficiency. Such pupils must be removed as soon as the deficiency is established beyond question.

Second—All pupils expecting to attend school should be sent promptly on the opening day, and those not so entered, except for such reasons as may be deemed valid by the Superintendent, shall be denied admission until the opening of the next year.

Third—All children should, if possible, be vaccinated before entering.

Fourth—Parents must furnish postage in all cases, and may hear from their children in proportion to the amount furnished. The session lasts about forty weeks. Parents of the small children sending us sixty cents (60c) may hear from their children once a week—ten letters and thirty postals. Those who do not furnish postage will not hear, except in case of illness, when a report is made daily until the child is out of danger.

Fifth—A contingent fee of \$10.00 must be deposited in every case to purchase such articles of clothing, shoes, etc., likely to be needed during the session. A strict account will be kept of all expenditures and an itemized statement made at the close of the school year. Clothing or shoes may be sent from home or purchased here by us, but nothing will be furnished without the cash before hand, except in cases of county pupils.

Sixth—All clothing should be of good quality and well made, with the buttons sewed on tightly. Good shoes are cheapest. Woolen underwear and woolen stockings are not needed unless

the child be very delicate. In no case purchase so-called fleeced-lined underwear. It does not wash well. A good quality of balbriggan is best. Our children romp and play a great deal, as all healthy children do, and are consequently very hard on clothing. All articles should be plainly marked. The best way is to sew the name in turkey red, which will last as long as the garment.

Seventh—Parents will be expected to pay for property wantonly destroyed by their children. We find that nothing makes children so careful as to know that the parent is held responsible for their carelessness, and parents are as much interested as we are in raising their children to a right appreciation of the responsibilities in life.

Eighth—While we are always glad to have parents visit their children, they cannot be entertained at the School. Parents are at liberty to have their children stay downtown with them over night, but not to interfere with the class work when it can be helped.

Ninth—All packages sent should be fully prepaid, and, if you wish receipt acknowledge, should be sent in care of the Superintendent. All letters to pupils should be addressed directly to them in care of the School.

Tenth—No attention will be paid to any complaint or any communication of any kind not addressed to the Superintendent, or the Board of Trustees. All money should be sent by express, money order, or registered letter, directly to the Superintendent, who will at once acknowledge receipt of same.

Eleventh—Teachers are sent out to the most important points at opening and close of the School to assist pupils in making changes and accompany them to school.

Twelfth—Please bear in mind that the School is more than a quarter of a mile from the nearest depot, and a full mile from the other one. Buses run within a block of the School.

For any further information apply to

A. L. BROWN, *Superintendent*,
School for Deaf and Blind,
Colorado Springs, Colo.

List of Clothing

FOR THE GIRLS

- | | |
|--|------------------------------------|
| 1 woolen dress, for best. | 3 brassieres (older girls). |
| 1 light-weight dress, for best. | 1 kimona. |
| 5 wash dresses, for school. | 1 comb. |
| 1 blue serge skirt. | 1 hair brush. |
| 2 white middies. | 1 tooth brush. |
| 1 white apron, sleeveless. | 1 nail brush. |
| 2 colored aprons, sleeveless. | 6 wash cloths. |
| 2 white cotton underskirts, not heavy. | 2 pairs shoes. |
| 2 colored cotton underskirts, not heavy. | 1 bunch shoe strings. |
| 5 pairs bloomers. | 3 union suits, light. |
| 3 pairs bloomers like dresses (younger girls). | 3 undervests. |
| 2 pairs white or pink saten bloomers. | 6 pairs stockings. |
| 3 underwaists. | 2 pairs stocking supporters. |
| 1 pair bedroom slippers. | 3 night dresses. |
| 1 pair rubbers (zippers). | 12 handkerchiefs. |
| *1 gymnasium suit. | 2 coats, one heavy, one light. |
| 1 pair gymnasium shoes. | 1 sweater. |
| | 2 hats, one winter and one summer. |
| | 1 cap. |
| | 1 pair gloves. |

Send pieces like dresses and aprons.

Put pockets in both dresses and aprons.

- | | |
|------------------------------------|---|
| 1 sweater. | 6 waists (4 dark, 2 white) younger boys. |
| 2 strong suits. | 1 pair rubbers. |
| 2 extra pairs of pants. | 6 neckties. |
| 3 night shirts or 3 pairs pajamas. | 2 hats or caps. |
| 3 suits light-weight underwear. | 6 pairs hose, best. |
| 2 pairs strong shoes. | *1 gymnasium suit. |
| 1 pair suspenders. | 1 pair gymnasium shoes. |
| 6 shirts (older boys). | 12 handkerchiefs. |
| 8 collars (soft) for older boys. | 2 pairs overalls or coveralls. |
| 1 tooth brush. | 2 pairs elastics or hose supporters. |
| 1 hair brush. | 1 pair bedroom slippers. |
| 1 comb. | 1 pair mittens or gloves. |
| 1 belt. | |
| 1 dozen shoe strings. | |

Mark all clothing with name in full.

*We much prefer getting the gymnasium suits, etc., at the School. The outfit for girls costs from \$3.25 to \$3.75, and for boys from \$2.00 to \$2.50.

General Information

1. Every trunk or other piece of luggage should be marked with the name of the owner.

2. All mail should be addressed to the pupil in care of the Colorado School for Deaf and Blind.

3. All communications concerning the pupils, or school business of any kind, **should be addressed to the Superintendent.**

4. Send us the number of your nearest telephone so that in case of sickness we can get into immediate touch with you.

5. All clothing should be in first-class repair before the pupil leaves home.

6. Each article of wearing apparel should be marked plainly, using Payson's indelible ink, or by sewing the name or number in turkey red. In marking the clothing, please observe the following:

Mark shirts, undershirts, night shirts, night dresses, etc., inside the back of neck; children's aprons on the band; handkerchiefs and towels on the corner. Don't be afraid to make the mark large and clear.

Report of the Board of Trustees

*To His Excellency,
Hon. Teller Ammons,
Governor of Colorado.*

SIR:

On behalf of the Board of Trustees, it gives me pleasure to present to you the sixty-third report of the activities of the Colorado School for Deaf and Blind ending June 30, 1937.

During the period for which this report is made there were 267 pupils enrolled in the School.

The efficiency of the School can well be measured in the educational field by the manner in which our pupils are accepted by institutions of higher learning.

All of our graduates in the Department for the Blind were acceptable at the University, two of them having been awarded scholarships because of their outstanding work.

Our pupils in the Department for the Deaf who took the college preparatory course passed the College Board and were accepted.

I am glad to report that the school work is being kept up to this high standard.

While we are not able to build now, we are ever keeping in mind the necessity for replacing our Girls' Hall, and we are trying to create such a balance that this can be done.

On April 15, 1937, Mrs. Beatrice Ahlborg was appointed to the Board to fill the vacancy caused by the death of Mrs. L. Kent Robinson.

The term of Mr. Richard Malone expired April 15, 1937, and Mr. Shirley Johnson was appointed to the Board.

Both of these appointments were confirmed by the Senate.

For further details regarding the School, I respectfully refer you to the Superintendent's report and the financial statement.

The teachers and officers of the School have been faithful to their duty and I wish to commend them for their excellent work.

Respectfully submitted,

July 1, 1937.

ASA T. JONES,
President Board of Trustees.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN:

It is my privilege, as well as my pleasure, to submit to you the annual report of the Colorado School for Deaf and Blind for the year ending June 30, 1937.

There were two hundred and sixty-seven pupils enrolled in the school during the year which has just closed.

The enrollment was classified as follows:

Deaf pupils	Boys, 126; girls, 80.	Total, 206
Blind pupils	Boys, 40; girls, 21.	Total, 61

The following is the enrollment by counties:

County	Deaf	Blind	County	Deaf	Blind
Adams	5	—	La Plata	4	1
Alamosa	3	—	Larimer	3	1
Arapahoe	1	—	Las Animas	5	1
Baca	2	1	Lincoln	1	1
Bent	2	1	Logan	2	1
Boulder	4	4	Mesa	5	3
Chaffee	6	1	Montezuma	2	—
Cheyenne	2	—	Montrose	2	—
Clear Creek	1	—	Morgan	2	—
Conejos	3	—	Otero	2	1
Costilla	2	2	Prowers	3	—
Crowley	1	—	Pueblo	16	5
Delta	3	1	Rio Grande	4	—
Denver	28	8	Routt	2	—
Douglas	—	1	Sagauche	2	—
Eagle	—	2	San Juan	2	—
Elbert	4	—	Teller	1	—
El Paso	23	8	Washington	1	—
Fremont	3	3	Weld	19	3
Garfield	1	—	Yuma	2	1
Gunnison	2	—	State of Wyoming	16	6
Huerfano	8	2			
Jefferson	5	1	Total	206	61

CHANGES IN STAFF

For the past several years, there have been very few changes in the staff that is employed at the School. In fact, this has been very much the history of the School. It seems that those who are employed here become so very much interested in the work and

become so attached to the pupils with whom they come in contact that they are rather reluctant to leave.

However, we do have a few changes for one reason or another.

At the close of school in June, Miss Sara B. Guthrie, one of our valued teachers in the primary department for the deaf, resigned to be married. Her place has been filled by the appointment of Miss Elma Strong, a teacher with excellent training and a number of years of successful experience.

We are sorry to report the loss of one of our most valued employees, Mr. Will D. Harbert, who passed away July 29, 1937. Mr. Harbert had been supervisor of the older deaf boys for over twenty years, and, being the son of deaf parents, he probably understood the deaf better than anyone in the State. It is a certain fact that no one in our State had a greater interest in the welfare of the deaf than did Mr. Harbert. The splendid example which he set, and his wonderful influence will be greatly missed. Of course his influence will live on because every pupil with whom he came in contact was influenced in the right direction. Mr. Irwin Marshall has been appointed to take his place.

GRADUATES

The graduating exercises were held Monday evening, May 31st, in the School Auditorium. There were eight graduates and two post-graduates from the Department for the Deaf and four graduates from the Department for the Blind.

We were very happy to have with us on this occasion our Governor, the Honorable Teller Ammons, who gave the commencement address and awarded the diplomas to the graduates. We all felt honored to have our Governor with us, and our graduates felt highly honored indeed to receive their diplomas from his hands.

After the awarding of special prizes, diplomas were awarded to the following who had successfully completed the prescribed course:

DEPARTMENT FOR THE DEAF

Sally B. Dennis	Lillian K. Uhrig
Ruth B. Gustafson	Donald E. Kennedy
Edwarda Martinez	Thomas R. McClusky
Charles Chorum	Kenneth B. Quist

DEPARTMENT FOR THE BLIND

Richard L. Jackson	Alan G. O'Kelly
Melvin H. King	Erwell R. Solomon

Certificates in tuning were awarded to Richard L. Jackson, Alan G. O'Kelly and Erwell Solomon.

In connection with the graduation exercises, an industrial exhibit was held showing the products that were made in the shops where the various trades are taught. These showed very well the result of the work in this department.

The Baccalaureate Services were held in our Chapel at three o'clock Sunday afternoon, May 30th. The sermon was given by Rev. Daniel Day Williams, Pastor of the First Congregational Church of Colorado Springs.

SCHOLARSHIP

The first aim of the School is to give the pupils who come here a well-rounded academic education, and to that end a well-planned course of study has been arranged.

Our teachers continue to be interested in professional growth and for that reason a number are doing summer school work or taking extension courses from the University.

A large per cent of the others attended the Convention of Instructors of the Deaf which was held in New York City in June of this year.

At these conventions, papers are presented that are of particular interest to those in our profession. Valuable demonstrations are also given in the most practical and up-to-date methods of teaching.

Attendance at these conventions is very much worth while and keeps our School in touch with what is being done for the advancement of our profession in other educational centers.

In any school, there are pupils who cannot accomplish what would be expected of the average. This is a natural condition, but, as a whole, the school work during the past year was very satisfactory.

The graduates who went out from the Department for the Blind were well prepared to take up their desired courses in the colleges and universities.

In the Department for the Deaf, we are glad to report that those who took the preparatory course to enter Gallaudet College for the Deaf successfully passed the "college board" and have been accepted by the college to enter this fall.

MAINTENANCE

The maintenance of the buildings and the upkeep of the grounds play a very important part in the life of any institution and ours is not an exception to the rule. If the buildings are to serve their purpose, they should be kept in a proper state of repairs and a pleasing appearance should be maintained.

Our classes in carpentry and in painting have done their usual good job along that line during the past year.

The woodwork in Asa T. Jones Hall has been painted and the walls and ceilings kalsomined throughout.

The pupils' dining room has been re-decorated and the hallways in the Argo Building have been painted. The outside woodwork in this building has also been painted.

The three cottages, located at 1104, 1106 and 1112 East Pikes Peak Avenue, have been put in a good state of repairs and the interior of each cottage has been re-decorated.

The Industrial Building, or Trade Shops Building, which was badly in need of attention, has had the outside wood-work repaired and completely painted.

These are the larger projects, but there are also smaller projects too numerous to mention. We still believe that money spent in proper repairs will be money saved in future years.

FRIENDS

The School is indeed fortunate in its friends. There are many individuals and organizations that are deeply interested in the welfare of our pupils. These friends and organizations cause many things to happen which bring pleasure to our students. These courtesies are appreciated by us as well as by them.

The teachers and other officers of the school also take a friendly interest in our pupils in addition to their regular duties. Their interest in the advancement of the School, and their efforts in bringing happiness to our children are greatly appreciated.

Respectfully submitted,

A. L. BROWN,
Superintendent.

July 1, 1937.

Report of the Director of Music

DR. A. L. BROWN,
Superintendent.

DEAR SIR:

The year 1936-1937 was a very satisfactory one for the Music Department. The pupils showed a great deal of interest in their work and made splendid progress. As usual, a Braille class was conducted for beginners. Programs were given twice a month, which gives the pupils valuable experience in playing before an audience. Three public programs were given at the close of the school year, one by the Junior division, one by the Intermediate and one by the Senior division.

The pupils took part on twenty-two programs in the city and also in different places in the State, other than those already mentioned.

Many opportunities were given the pupils to attend concerts and other entertainments, these privileges being of educational value, as well as most enjoyable to them.

The number of pupils enrolled in the department follows:

Piano	36
Organ	4
Violin	10
Harmony	1
History	1
Guitar	1
Orchestra	8
'Cello	1
Vocal	2
Tuning	5
Senior Choir	26
Junior Choir	17
Primary Choir	9
Male Quartet	4

Respectfully submitted,

MABEL L. HEMUS,
Director of Music.

Report of the Medical Staff

*Colorado State Board of Health,
Denver, Colorado.*

DEAR SIRs:

At the request of Dr. A. L. Brown, we the undersigned are herewith submitting our report for the school year, September 1, 1936, to June 1, 1937.

The school maintains a hospital of twenty-four beds and an annex hospital for contagious diseases with the capacity of thirty beds. The hospital is under the constant supervision of Miss Estelle Thomas, a graduate nurse.

At the beginning of the school year each new pupil is examined by an eye specialist, and ear, nose and throat specialist, and is given a general physical examination. Routine Wassermans were taken, all of which were negative.

The total attendance for the school year was 267. There was a daily average of 89 dispensary treatments. Admittance to the hospital with diagnoses follow:

Adenitis	5	Headache	21
Appendicitis	1	Indigestion	17
Bronchitis	2	Infections	8
Bruises, cuts, minor injuries	9	Observation	13
Chorea	3	Pertussis	8
Concussion of brain	1	Pneumonia	4
Constipation	2	Reaction from S. P. vaccine	3
Coryza	98	Scabies	14
Ear abscess	11	Scarlet fever	2
Earache	7	Strep. blood infection	1
Empyema (surg.)	1	Tonsillitis	34
Erysipelas	2	Vincent's	3
Flu	53		
Fractures (1 clavicle, 1 elbow) ..	2		325

School daily average.....	264	Surgical cases	1
Hospital days	2,198	Successfully vaccinated for	
Daily average	8	small pox	29
Cases of contagion.....	12	Immunized against diphtheria	29
Fractures	2	Deaths (pneumonia)	1
Pneumonia	4	Dispensary daily average.....	89

Respectfully submitted,

J. H. BROWN, M. D.
D. A. VANDERHOOF, M. D.
GEORGE H. STINE, M. D.

LIBRARY FUND

This fund consists of \$10,000 donated by General William J. Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Heights Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

Report of the Board of Trustees

*To His Excellency,
Hon. Teller Ammons,
Governor of Colorado.*

SIR:

As President of the Board of Trustees of the Colorado School for Deaf and Blind, it gives me pleasure to present to you the sixty-fourth report of the affairs and activities of the School ending June 30, 1938.

In our previous reports, we mentioned that our Girls' Hall should be replaced. We then felt that we could build up our balance to the point where we could replace the Hall from our revenues and consequently did not ask to participate in the ten year building program that was instituted by the last Legislature.

We have met with some success in trying to build up our balance but with changed conditions, in the field of taxation, we feel that other provisions now should be made for the early erection of a New Girls' Hall to replace the present one which is a fire hazard, this building being filled with girls either deaf or blind whose escape from such a building would be very slow.

The welfare of the pupils who have been in attendance has been given closest attention.

During the summer the Colorado Association of the Deaf composed of the adult deaf met in Colorado Springs and it was pleasing to us to note with what degree of success the members who had gone out from us were carrying on.

The work of the School has gone forward and we are continuing to send out from us fine young men and young women who are dependable.

Those directly responsible for the training of these young people are the teachers and officers of the School and I want to assure you of our appreciation for their splendid work.

I respectfully refer you to the Superintendent's Report for a detailed account of the activities of the School.

Respectfully submitted,

ASA T. JONES,
President Board of Trustees.

July 1, 1938.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN :

It gives me pleasure to present to you the sixty-fourth annual report of the Colorado School for Deaf and Blind, which is for the year ending June 30, 1938.

The increase in enrollment is gradual, but in the last ten years, it has increased almost twenty-one percent.

There were enrolled in the School during the year two hundred and seventy-one pupils.

The enrollment was classified as follows:

Deaf pupils Boys, 128; girls, 87. Total, 215

Blind pupils Boys, 36; girls, 20. Total, 56

The following is the enrollment by counties :

County	Deaf	Blind	County	Deaf	Blind
Adams	4	—	La Plata	3	1
Alamosa	4	—	Larimer	7	1
Arapahoe	4	—	Las Animas	3	2
Archuleta	1	—	Lincoln	—	1
Baca	2	1	Logan	2	1
Bent	3	2	Mesa	5	2
Boulder	4	3	Montezuma	2	—
Chaffee	6	1	Montrose	2	—
Cheyenne	2	—	Morgan	2	—
Conejos	5	1	Otero	3	2
Costilla	2	1	Prowers	3	—
Crowley	1	—	Pueblo	18	1
Delta	2	1	Rio Grande	2	—
Denver	27	9	Routt	3	—
Dolores	1	—	Sagauche	2	—
Douglas	—	1	San Juan	1	—
Eagle	—	2	Sedgwick	1	—
Elbert	4	—	Teller	2	—
El Paso	25	7	Washington	1	—
Fremont	3	4	Weld	19	2
Garfield	1	1	Yuma	2	1
Gunnison	2	—	State of Wyoming	16	4
Huerfano	9	2			
Jefferson	4	1	Total	215	56
Kiowa	1	—			

CHANGES IN STAFF

Mr. J. S. Hudson, who had served the School for over twenty years as instructor of barbering, retired from active service and Mr. S. H. Lynch was appointed to take his place.

During the year, the School suffered a great loss through the passing of Mr. Edwin A. Dietrich. Mr. Dietrich came to the School as a young man to teach violin and conduct the orchestra. He was a musician of the highest type and remained with the School until his death—a period of thirty-six years.

Mr. William Roeth was appointed to his position to fill out the year, and retired at the close of school.

Mr. Robert Gross, a well known musician of Colorado Springs and Denver, has been appointed to take the place for the coming year.

Mrs. Annie W. Bruce, who had served the School for fifteen years as Supervisor of blind boys, has retired and we believe her work can be asorbed by our present force.

Miss Gladys Starkweather, who has been Director of Athletics for our girls and Junior deaf boys, resigned her position to be married. The position was filled by the appointment of Miss Elizabeth Woods, who has had special training for this type of work.

Miss Mary E. Wolfe, who had been a supervisor at the School for nearly thirty years, has taken a rather indefinite leave of absence on account of her health and has retired for the present. Her work has been taken over by Mrs. Evelyn Plenderleith.

GRADUATES

The graduating exercises were held at the School Monday evening, May 30th.

We had hoped to have with us our Governor, the Honorable Teller Ammons, to present the diplomas to our graduates, but a previous engagement in the northern part of the State prevented his being here.

There were eleven graduates, and five doing post-graduate work.

After a short address by Mr. J. Alfred Ritter, Secretary of the Board of Trustees, the Superintendent of the School, A. L. Brown was asked to present the diplomas and award special prizes.

Diplomas were awarded to those who had satisfactorily completed the course as follows:

DEPARTMENT FOR THE DEAF

Eldon Ray Beverly
George Henry Dietz
Virginia Lee Duff

Genevieve Angeline Lipinski
Arthur Robert McCaw
Eugene Morgan Otteson

Keith Kay Ferguson
Thelma Elizabeth Fritz

Glenn Lee Poole
Harold Jay Whitmer

DEPARTMENT FOR THE BLIND

Gladys G. Smith

The Baccalaureate Sermon was given by the Rev. Harry S. Kennedy, Rector of the Grace Episcopal Church of Colorado Springs.

The graduating class consisted of a group of fine young people.

Four of the five who took the examinations for entrance to the preparatory class at Gallaudet College for the Deaf, were accepted by the College and expect to enter this fall.

With the present difficulty in securing employment by anyone, we are very much pleased with the number of our pupils who have gone out and are now working and making their own way or contributing to the family budget.

FACULTY

The scholarship that is maintained by any school is always of first importance, and the personnel of the faculty is responsible for its academic standing. While we have a well chosen faculty, yet there are changes in educational methods from time to time which are presented at our educational conventions. Attendance at these conventions enables us to keep in touch with the progress that is being made in the different phases of our work.

Our people have taken a progressive attitude and, where possible, have attended these conventions. Others have taken summer school work or extension courses to better fit them for their work. More and more stress is being put upon this matter in our profession, and we believe better work will result.

By keeping in touch with the best educational centers, we are able to keep up with the best approved methods.

HEALTH

In the operation of a school of this kind, there are many important phases of the work besides the academic and the industrial training. Not the least of these is the matter of the health of our children.

Where so many are gathered together in one school, it is necessary for us to operate a small hospital to look after the general health of our children and take care of such illnesses that are incidental to childhood. A nurse is kept on duty at all times and often by prompt action, a serious case of sickness can be prevented. We believe that the health of our children during the year was better than it has been for several years.

When infantile paralysis broke out in our State and in our city last fall, we promptly quarantined ourselves until the scare was over and as a possible result, there were no cases at the School.

During the year, there were only fifteen cases of contagion, and there was only one operation. There were, of course, the usual number of minor illnesses such as colds and sore throats. There were no deaths.

UP-KEEP

Up-keep, or repairs, is another important part of the work that goes on around a school of this kind. If this is neglected, it soon shows in the general appearance of the buildings and grounds. For this reason, it is given careful attention.

During the past year, Palmer Hall, which is a boys' dormitory, was completely re-decorated and the beds and furniture were re-finished by our class in painting. The milk house at the ranch was painted inside and out, and the inside of the ranch cottage was re-decorated. The Hospital was completely painted on the outside, and the inside walls of the Annex were redecorated.

The last big job of the year was the painting of the outside woodwork of the Administration Building.

Besides preserving them, the buildings now have a very pleasing appearance.

SCHOOL WORK

There are many other important activities of the School that require our attention, but the real function of the School is education and training and this phase of the work is given by far the most important place in our efforts. Our object is to give our pupils a good primary and secondary school education and to also give them a good foundation in the various trades that are taught at the School.

We are constantly keeping our course of study up to date and the reports from the schoolrooms indicate that the work for the year has been satisfactory.

APPRECIATION

If it were not for the interest that many thoughtful people take in the welfare of our pupils, they would lose many opportunities for pleasant experiences.

The Lions Club has done many helpful things for the welfare of our individual pupils and some of our graduates, which we very much appreciate.

We are grateful to Mrs. C. D. Weimer, who for twenty years has admitted our pupils to Seven Falls on the occasion of their annual school picnic. This day would not seem complete without this trip to the Falls and Mrs. Weimer has always been so very courteous.

We are also very appreciative of the thoughtfulness of Mr. Spencer Penrose for season tickets to the Civic Music concerts. We are grateful to Dr. Frederick Boothroyd and Mr. Stanley Lothrop for tickets to the Colorado Springs Symphony concerts, and to Mrs. A. E. Carlton, who made it possible for our pupils to attend the Edward Morris recital.

Mr. J. E. Tompkins, who has charge of three theatres in Colorado Springs, and Mr. Snyder and Mr. Campbell of the Cave of the Winds have been most considerate of our pupils.

The courtesies extended by them have meant so much and have given pleasure that the children could not have otherwise enjoyed.

We appreciate also the interest taken in us by the officials of the State and the members of the Board of Trustees.

The teachers and officers have shown a real personal interest in the welfare of the School which is always appreciated.

Respectfully submitted,

A. L. BROWN,
Superintendent.

July 1, 1938.

Report of the Director of Music

A. L. Brown,
Superintendent.

DEAR SIR:

The year 1937-1938 was very satisfactory for the Music Department. The pupils were interested in their work and made splendid progress. As usual a Braille class was conducted for those beginning musical Braille. They are permitted to enter this class after having had one year of literary Braille. Recitals were given once a month, which are a great benefit to the pupils, as in this way they get experience playing before an audience. Three public recitals were given, as usual, at the close of the school year; one by the Junior division, one by the Intermediate and one by the Senior division.

The pupils took part in twenty programs in the city and also in different places in the state.

The pupils appreciate and enjoy the many opportunities given them to attend concerts and other entertainments.

The number of pupils enrolled in the department follows:

Piano	29
Organ	3
Violin	10
Orchestra	10
Harmony	4
History	3
Vocal	2
Tuning	4
Senior Choir	26
Junior Choir	16
Primary Choir	8

Respectfully submitted,

MABEL L. HEMUS,
Director of Music.

Report of the Medical Staff

*Colorado State Board of Health,
Denver, Colorado.*

DEAR SIRS:

At the request of Dr. A. L. Brown, we the undersigned, are herewith submitting our report for the school year, September 8, 1937, to May 31, 1938.

The School maintains a hospital of twenty-four beds and an annex hospital for contagious diseases with a capacity of thirty beds. The hospital is under the constant supervision of Miss Estelle Thomas, a graduate nurse.

At the beginning of the school year, each new pupil was examined by an eye specilaist, an ear, nose and throat specialist and was given a general physical examination. Routine Wassermans were taken, one of which was positive.

The total attendance for the school year was 271. There was a daily average of 88 dispensary treatments. Admittance to the hospital with diagnosis follows:

Adenitis	6	Headache	31
Appendicitis (non-surg.)	2	Indigestion	23
Appendicitis (surg.)	1	Infections	11
Bronchitis	1	Measles	4
Chicken pox	8	Observation	11
Chorea	1	Scabies	4
Conjunctivitis	4	Scarlet fever	3
Coryza	81	Sprains	4
Ear abscess	7	Tonsillectomy	1
Earache	11	Tonsillitis	23
Epilepsy	4	Miscellaneous	21
Flu	1		
Fractured elbow	1		
		Total	227

Hospital days	1464	Successfully vaccinated for	
Daily Average, patients	6	small pox	13
Cases of Contagion	15	Immunized against diphtheria	16
Fractures	1	Dispensary daily average	89
Surgical cases	2	No deaths	

Respectfully submitted,

J. H. BROWN, M. D.
D. A. VANDERHOOP, M. D.
GEORGE H. STINE, M. D.

LIBRARY FUND

This fund consists of \$10,000 donated by General William J. Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Heights Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

TABLE V

Showing kinship as reported in 1158 cases of deafness and 504 cases of blindness.

DEAF

In thirty-eight (38) cases of deafness, parents were related before marriage.

Twenty-six (26) deaf pupils have deaf parents.

One hundred seventy-five (175) deaf pupils have deaf relatives.

BLIND

In sixteen (16) cases of blindness, the parents were related before marriage.

Nine (9) blind pupils have blind parents.

Forty-five (45) blind pupils have blind relatives.

Colorado School for Deaf and Blind

HISTORICAL

The "Colorado Institute for Deaf Mutes" was founded in 1874, while the State was yet a Territory; the Blind Department being added in 1883. There were present on the opening day six pupils, the home of the School being a small frame building long since torn down. Up to the present time some 1158 deaf persons and 504 blind persons have been enrolled as pupils, the number of both in attendance the present session (1937-1938) being 271. The valuation of buildings and equipment is \$1,110,936.64; adding to this the value of the land and live stock brings our total valuation to \$1,161,083.64.

CHARACTER OF THE SCHOOL

The Colorado School for Deaf and Blind is, as the name implies, a school pure and simple. It was established in accordance with the purpose of the State to give to every child within her boundary capable of taking it a common school education. It is not in any sense an "asylum" or "home" for afflicted, it is not a hospital for the care and treatment of the eyes and ears, and it is not a place for the detention and care of the imbecile. A child so unsound physically as to require constant care, or so backward mentally as to make no progress in the literary department, cannot be retained in the School.

COURSE OF STUDY

The course of study for deaf covers about the same ground as the public schools of the State. The blind, to whom language presents no difficulty, are given a very thorough high school course. To secure the best results in both instances it is necessary that the child be entered as soon as it becomes of school age, and that the attendance be regular and continuous throughout the entire course.

METHOD OF INSTRUCTION

In the Department for the Blind methods are those approved by the best schools of the country. Revised Braille is used in the greater part of the literary work and in music, but all are taught to write script and operate typewriters.

In the Department for the Deaf all new pupils are placed in oral classes, where the attempt is made to teach them to speak and read the lips. Those who have learned to talk before losing their hearing, and some of those born deaf, do well under this method, and such are kept in the oral department during their stay here. All school work with these pupils is done orally, so there is no danger of their forgetting how to talk, as some parents fear. There are, however, some deaf children who can never learn to speak well enough to make it of practical value, and these are taught by use of the manual alphabet and by writing.

TRADES

In addition to work in the literary department, the School undertakes to give each pupil such knowledge of some trade as may be a help in gaining a livelihood after graduation. To this end, from one to three hours per day through the entire course is spent in the shops under competent instructors. The trades taught at present are: *For the blind boys*—Broom making, brush making, piano tuning, shoemaking, rug, carpet and hammock weaving. *For the deaf boys*—Baking, barbering, carpentry, gardening, painting, printing, shoemaking and sloyd. All girls have regular instruction in sewing, knitting, crocheting, and such general housework as is involved in the care of their own rooms. A selected number are given instruction in dressmaking. All older girls, both deaf and blind, have lessons in cooking under a trained instructor.

TERMS OF ADMISSION

All deaf and blind persons, of sound mind and body, between the ages of six and twenty-one years, actual residents of Colorado, are entitled to admission to the School free of charge. This includes all those whose hearing or sight is so impaired as to prevent them from obtaining an education in the public schools. Tuition, board and laundry, medicines and medical attendance, books and apparatus used in teaching—in short, everything is furnished free of charge, except clothing and traveling expenses. In cases of absolute poverty, the respective counties assume expense of traveling and clothing. While no persons are taken into the School for the purpose of giving medical treatment, all children coming to us are examined by a specialist, and treatment is given wherever it is needed. The sick have the very best care and attention.

SESSIONS

The School opens in September on the first Wednesday after

Labor Day, and closes on the first Wednesday of the following June, thus giving the pupils nine months at the School and three months at home each year. All pupils must be promptly removed at the close of the session.

GENERAL REMARKS

As has been said before, the Colorado School for Deaf and Blind is not an asylum or a hospital for the care of afflicted children. Parents desirous of entering children should carefully observe the following:

First—A child once entered is expected to remain until the close of the session, and cannot be withdrawn without the consent of the Superintendent. Pupils withdrawn without his consent forfeit the right to the privileges of the School unless permitted to return by special action of the Board of Trustees. This, of course, does not apply to those who may prove ineligible because of physical or mental deficiency. Such pupils must be removed as soon as the deficiency is established beyond question.

Second—All pupils expecting to attend school should be sent promptly on the opening day, and those not so entered, except for such reasons as may be deemed valid by the Superintendent, shall be denied admission until the opening of the next year.

Third—All children should, if possible, be vaccinated before entering.

Fourth—Parents must furnish postage in all cases, and may hear from their children in proportion to the amount furnished. The session lasts about forty weeks. Parents of the small children sending us sixty cents (60c) may hear from their children once a week—ten letters and thirty postals. Those who do not furnish postage will not hear, except in case of illness, when a report is made daily until the child is out of danger.

Fifth—A contingent fee of \$10.00 must be deposited in every case to purchase such articles of clothing, shoes, etc., likely to be needed during the session. A strict account will be kept of all expenditures and an itemized statement made at the close of the school year. Clothing or shoes may be sent from home or purchased here by us, but nothing will be furnished without the cash before hand, except in cases of county pupils.

Sixth—All clothing should be of good quality and well made, with the buttons sewed on tightly. Good shoes are cheapest. Woolen underwear and woolen stockings are not needed unless

the child be very delicate. In no case purchase so-called fleeced-lined underwear. It does not wash well. A good quality of balbriggan is best. Our children romp and play a great deal, as all healthy children do, and are consequently very hard on clothing. All articles should be plainly marked. The best way is to sew the name in turkey red, which will last as long as the garment.

Seventh—Parents will be expected to pay for property wantonly destroyed by their children. We find that nothing makes children so careful as to know that the parent is held responsible for their carelessness, and parents are as much interested as we are in raising their children to a right appreciation of the responsibilities in life.

Eighth—While we are always glad to have parents visit their children, they cannot be entertained at the School. Parents are at liberty to have their children stay downtown with them over night, but not to interfere with the class work when it can be helped.

Ninth—All packages sent should be fully prepaid, and, if you wish receipt acknowledge, should be sent in care of the Superintendent. All letters to pupils should be addressed directly to them in care of the School.

Tenth—No attention will be paid to any complaint or any communication of any kind not addressed to the Superintendent, or the Board of Trustees. All money should be sent by express, money order, or registered letter, directly to the Superintendent, who will at once acknowledge receipt of same.

Eleventh—Teachers are sent out to the most important points at opening and close of the School to assist pupils in making changes and accompany them to school.

Twelfth—Please bear in mind that the School is more than a quarter of a mile from the nearest depot, and a full mile from the other one. Buses run within a block of the School.

For any further information apply to

A. L. BROWN, *Superintendent*,
School for Deaf and Blind,
Colorado Springs, Colo.

List of Clothing

FOR SMALL GIRLS (6 TO 12)

3 white cotton undershirts	5 pairs bloomers	1 comb
*1 gymnasium suit	1 sweater or jacket	1 hair brush
1 pair gymnasium shoes	6 pairs stockings	1 tooth brush
2 pairs stocking supporters	12 handkerchiefs	1 nail brush
3 night dresses or pajamas	5 wash dresses	1 coat, heavy
1 pair bedroom slippers	3 underwaists	1 cap
1 bunch shoe strings	1 bath robe	1 pair gloves
3 union suits, light	2 pairs shoes	

FOR OLDER GIRLS (12 TO 21)

3 night dresses or pajamas	1 pair gloves	6 wash cloths
2 hats—1 winter, 1 summer	12 handkerchiefs	1 nail brush
1 lightweight dress, for best	2 pairs shoes	1 tooth brush
1 woolen dress, for best	1 wool skirt	1 hair brush

1 pair mittens or gloves	2 tooth brushes	2 betts
1 pair bedroom slippers	1 doz. shoe strings	3 pajamas
*1 gymnasium suit	2 pairs strong shoes	2 sweaters
1 pair gymnasium shoes	3 extra pairs of pants	8 pairs hose
	6 shirts—2 dark blue, 1 white, 3 print	1 hair brush
		1 strong suit

FOR OLDER BOYS (12 TO 21)

3 suits lightweight underwear	1 dozen shoe strings	1 pair gloves
7 shirts—4 school, 2 blue for work, 1 white	3 pairs pajamas	6 pairs hose
1 pair bedroom slippers	2 pairs strong shoes	6 neckties
2 pairs hose supporters	12 handkerchiefs	1 belt
*1 gymnasium suit	2 pairs overalls	1 comb
1 pair gymnasium shoes	2 hats or caps	1 sweater
	2 strong suits	1 hair brush
	1 tooth brush	

Mark all clothing with name in full.

*We much prefer getting the gymnasium suits, etc., at the School. The outfit for girls costs from \$3.25 to \$3.75, and for boys from \$2.00 to \$2.50.

General Information

1. Every trunk or other piece of luggage should be marked with the name of the owner.
2. All mail should be addressed to the pupil in care of the Colorado School for Deaf and Blind.
3. All communications concerning the pupils, or school business of any kind, **should be addressed to the Superintendent.**
4. Send us the number of your nearest telephone so that in case of sickness we can get into immediate touch with you.
5. All clothing should be in first-class repair before the pupil leaves home.
6. Each article of wearing apparel should be marked plainly, using Payson's indelible ink, or by sewing the name or number in turkey red. In marking the clothing, please observe the following:

Mark shirts, undershirts, night shirts, night dresses, etc., inside the back of neck; children's aprons on the band; handkerchiefs and towels on the corner. Don't be afraid to make the mark large and clear.

Report of the Board of Trustees

*To His Excellency,
Hon. Ralph L. Carr,
Governor of Colorado.*

SIR:

It becomes my pleasant duty as President of the Board of Trustees of the Colorado School for Deaf and Blind to present to you the sixty-fifth report of the activities of the School ending June 30, 1939.

There were two hundred and sixty-nine enrolled in the School during the year.

The degree of success our pupils have had in passing the college boards stands as testimony to the high standard of work that is being done in the academic department, and, as could naturally be expected, this standard is maintained throughout the various departments.

Detailed accounts of the activities and financial statements will be found elsewhere in this report. However, I do want to commend our teachers and officers for their continued interest in pupils entrusted to them for their care and instruction.

Respectfully submitted,

July 1, 1939.

ASA T. JONES,
President Board of Trustees.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN:

Again I have the privilege of submitting to you the annual report of the Colorado School for Deaf and Blind. This report is for the year ending June 30, 1939.

During the year just closed there were two hundred sixty-nine pupils enrolled in the School.

The enrollment was classified as follows:

Deaf pupils	Boys, 129; girls, 85.	Total, 214
Blind pupils	Boys, 33; girls, 22.	Total, 55

The following is the enrollment by counties:

County	Deaf	Blind	County	Deaf	Blind
Adams	5		Larimer	8	2
Alamosa	3		Las Animas	4	3
Archuleta	3		Lincoln		1
Baca	2	1	Logan	1	1

CHANGES IN STAFF

Mrs. Charlotte Uhls, our very efficient matron, resigned on

January 1st to accept a better and more lucrative position in Vancouver, Washington. This position was filled by the appointment of Mrs. Tillie Garman, who had been assisting Mrs. Uhls in the domestic department for the last few years.

At the close of school, Miss Estella Thomas, who had been our school nurse, resigned to be married. Her place was filled by the appointment of Miss Urania King, a graduate nurse from one of our local hospitals, and comes highly recommended.

Mr. Robert Gross, who taught violin and conducted our orchestra as a part-time position, resigned because Colorado College, where he teaches, will require more of his time during the coming year. Mr. Cecil Effinger, who also teaches in the department of music of Colorado College, has been appointed to take his place. Mr. Effinger has studied not only in this country but also abroad.

Miss Evelyn Bond, one of our teachers of the deaf, received a scholarship from Columbia University in New York and has asked for a leave of one year in which to study, it being her desire to take some educational subjects and complete her work for a degree. It is hoped that we will be able to absorb her work for the one year.

GRADUATES

The graduating exercises, which were held in our School Auditorium Monday evening, June 5th, were attended by one of the largest audiences we have ever had.

There were six post-graduates and ten graduates from the Department for the Deaf and four graduates from the Department for the Blind.

We felt particularly honored on this occasion at having our Governor, the Honorable Ralph L. Carr, with us to give the Commencement address and award the diplomas to our graduates. It is needless to say that our graduates felt highly honored to receive their diplomas from the Chief Executive of our State.

In accordance with the usual custom, the special prizes were presented, after which diplomas were awarded to the following:

DEPARTMENT FOR THE DEAF

Charlene Lavera Howetter	Leslie E. Geist
Elizabeth Ann Lamm	Charles Victor Granot
Edna Louise Mink	Charles Ira Hall
Enid Elois Young	Robert Roy Kennedy
Leonard Garwood Deering	Francis Lowell Whisenant

DEPARTMENT FOR THE BLIND

Elenor Friel	Edward Lee Brenton
Joseph John Albrecht	William Woodward Monk

The industrial exhibit, which consists of articles that are calculated to show the type of work that is done in each of our trade teaching shops, proved to be an important part of our commencement again this year.

The Baccalaureate Services were held in our Chapel at three o'clock Sunday afternoon, June 4th, with Dr. Loren M. Edwards, Pastor of the First Methodist Episcopal Church of Colorado Springs, giving the sermon.

SCHOLARSHIP

Along with changes that are being made in the different fields of our industrial and national life, changes are also being made in methods of instruction and education.

It is our desire to have our people familiarize themselves with these changes whether we find ourselves willing to accept all of them or not. During this day and time there are many persons trying to push their own ideas and their own hobbies to the front, but with our well-balanced faculty we believe we have maintained a well-rounded and desirable program.

In line with our desire to keep informed of what others in our profession are doing, more than sixty per cent of our teaching staff, plus some of our officers, attended the Convention of Instructors of the Deaf held in Berkeley, California, from June 21 to 25 of this year, and are able to bring us back first-hand information.

Our school work for the past year has been very satisfactory.

The only graduate from the Department for the Blind who wished to go on to college was granted a scholarship by Colorado College because of his high scholastic standing.

Five of our students in the Department for the Deaf took competitive examinations with 139 students from schools for the deaf all over the United States for entrance to Gallaudet College for the Deaf in Washington, D. C. Four of our five were accepted.

By way of explanation, I will say there were 139 contestants for entrance to Gallaudet College and there were only forty-five vacancies. We are therefore glad to report that our pupils, through these competitive examinations, won four of the forty-five places available to these contestants from the various schools throughout our country.

It is our desire to keep our School up to this high standard of scholarship and we shall make the effort to do so.

HEALTH

From the standpoint of health, this is one of the best years we have had within our memory.

THE BAKERY AND CLASS IN BAKING

There was very little sickness during the year and no serious illnesses and no deaths. Of course we had our usual colds, etc., but we were free from epidemics. There were two eye enucleations, one iridectomy and one appendix operation.

As is generally known, we are a school and not a hospital, and in cases where it has been necessary for our pupils to have unusual medical care we have had splendid cooperation from the Colorado General Hospital in Denver.

VOCATIONAL TRAINING

In addition to our regular academic subjects, a number of different trades are taught at the School in order to fit our pupils for greater usefulness after they leave school.

Through the assistance of the State Vocational Rehabilitation Department we have been able to add one more trade to our list without any additional expense to the School.

This department granted scholarships for two of our most talented young ladies to attend Cooks' Beauty Culture College in our city. The Beauty Culture College reports that our girls are doing excellent work. They have about five more months in which to complete their work.

We are watching this innovation with much interest and we are hoping that the results will make it possible to extend our vocational training to include several other additional useful trades.

RETIREMENT PROVISIONS

In August, 1931, the retirement act which was passed by the State Legislature became effective.

It provided for the retirement of State employes under certain rules contained in the act. The wording of the law, however, excluded our teachers and instructors from membership in the retirement association. The members of the last legislature, recognizing that our teachers should not be excluded from membership in the retirement association, amended the law so as to make it possible for them to join. Many of our teachers have already taken advantage of the provisions of this law as amended and have joined the association.

THANKS

We are very thankful to the individuals and organizations in our city who have been so considerate of our pupils. I'm sure they realize what their thoughtfulness means to our children.

We wish to thank Mr. Spencer Penrose for making it possible for our students in the Department for the Blind to attend the

Civic Music Concerts. We are grateful to Mrs. A. E. Carlton for providing tickets to one of the concerts at the Fine Arts Center.

Through the courtesy of Mr. Stanley Lathrop it has been made possible for our pupils to enjoy many pleasing programs at the Fine Arts Center of which he is the director.

We wish to express our appreciation to Mr. J. E. Tompkins, manager of three of Colorado Springs' moving picture theatres, for his thoughtfulness of our pupils at all times.

The officers of the State have been very considerate of us and our teachers, and officers have taken a keen interest in the welfare of the School and our pupils, all of which is very much appreciated.

Respectfully submitted,

July 1, 1939.

A. L. BROWN,
Superintendent.

Report of the Director of Music

Dr. A. L. Brown,
Superintendent.

DEAR SIR:

The year 1938-1939 was a most satisfactory one for the Music Department. The pupils showed a great deal of interest in their work and made splendid progress. A class in musical Braille was conducted throughout the year. Those entering this class are required to have one year of literary Braille. Monthly recitals were given all through the year, which give the pupils experience in playing before an audience.

Three public recitals, one by the Junior division, one by the Intermediate, and one by the Senior division, also a solo graduation recital, were given at the close of school.

The pupils took part on thirty-three programs in the city and different places in the State.

The pupils appreciate and enjoy the many opportunities given them to attend concerts and other entertainments.

The number of pupils enrolled in the department follows:

Piano	37
Organ	3
Violin	10
Orchestra	10
Harmony	4
History	2
Vocal	1
Guitar	1
Tuning	6
Senior Choir	25
Junior Choir	16
Primary Choir	6
Boys' Glee Club	14
Girls' Glee Club	11

Respectfully submitted,

MABEL L. HEMUS,
Director of Music.

Report of the Medical Staff

*Colorado State Board of Health,
Denver, Colorado.*

DEAR SIRs:

At the request of Dr. A. L. Brown, we, the undersigned, are herewith submitting our report for the school year, September 7, 1938, to June 6, 1939.

The School maintains a hospital of twenty-four beds and an annex hospital for contagious diseases with a capacity of thirty beds. The hospital was under the constant supervision of Miss Estella Thomas, a graduate nurse.

At the beginning of the school year, each new pupil was examined by an eye specialist, an ear, nose and throat specialist, and was given a general physical examination. Routine Wassermans were taken, one of which was positive.

The total attendance for the school year was 269. There was a daily average of 77 dispensary treatments. Admittance to the hospital, with diagnosis, follows:

Adenitis	1	Indigestion	32
Appendicitis (med.)	5	Infections	7
Appendicitis (surg.)	1	Iridectomy	1
Bronchitis	2	Measles	15
Chicken-pox	1	Pertussis	1
Chorea	3	Pharyngitis	5
Conjunctivitis	1	Pneumonia	1
Corneal Ulcer	1	Scabies	7
Coryza	90	Sprains and Injuries	11
Ear Abscess	1	Tonsillitis	32
Earache	7	Toxic Rash	2
Eye Enucleations	2	Miscellaneous	14
Headache	31		
Impetigo	2		
		Total	249

Hospital days	1545	Successfully vaccinated for	
Daily average, patients	6	small-pox	10
Contagious diseases	17	Immunized against diphtheria	15
Surgical cases	4	Dispensary daily average	77
		No deaths.	

Respectfully submitted,

J. H. BROWN, M. D.
D. A. VANDERHOOF, M. D.
GEORGE H. STINE, M. D.

LIBRARY FUND

This fund consists of \$10,000 donated by General William J. Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Heights Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

TABLE V

Showing kinship as reported in 1177 cases of deafness and 510 cases of blindness.

DEAF

In thirty-nine (39) cases of deafness, parents were related before marriage.

Twenty-six (26) deaf pupils have deaf parents.

One hundred seventy-eight (178) deaf pupils have deaf relatives.

BLIND

In sixteen (16) cases of blindness, the parents were related before marriage.

Nine (9) blind pupils have blind parents.

Forty-six (46) blind pupils have blind relatives.

Governor of Colorado.*

SIR:

It becomes my pleasant duty as President of the Board of Trustees of the Colorado School for Deaf and Blind to present to you the sixty-sixth report of the activities of the School ending June 30, 1940.

There were two hundred and sixty-one enrolled in the School during the year.

Our urgent need of a new Girls' Hall has received from your Excellency, and from other State officials, such sympathetic understanding that we are deeply grateful and greatly encouraged.

The continuing high standing of all the graduates of our School, both deaf and blind, who have gone forward into the fields of higher education bears high tribute to the character of the work done by our School.

Detailed accounts of the activities and financial statements will be found elsewhere in this report. However, I do want to commend our teachers and officers for their continued interest in pupils entrusted to them for their care and instruction.

Respectfully submitted,

July 1, 1940.

ASA T. JONES,
President Board of Trustees.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN :

I now have the honor to submit the annual report of the Colorado School for Deaf and Blind for the year ending June 30, 1940.

While our enrollment fluctuates only a little from year to year, the percent of increase over a period of years is rather large. The enrollment for the school year just closed is 261, and the pupils are classified as follows:

Deaf pupils	Boys, 119; girls, 86.	Total, 205
Blind pupils	Boys, 29; girls, 25.	Total, 54
*Deaf-Blind pupils	Boys, 2.	Total, 2

Total, 261

*Sent by this School to Perkins Institute, where they have a department for Deaf-Blind pupils.

The following is the enrollment by counties:

County	Deaf Blind		County	Deaf Blind	
Adams	3		Las Animas	4	1
Alamosa	3	1	Lincoln		1
Archuleta	3		Logan		1
Baca	2	1	Mesa	4	3
Bent	3		Montezuma	2	1
Boulder	5	3	Montrose	3	
Chaffee	5		Morgan	2	1
Cheyenne	2		Otero	5	4
Conejos	5	1	Park	1	
Costilla	2	1	Prowers	2	
Custer		1	Pueblo	15	3
Delta	1		Rio Grande	3	1
Denver	33	10	Routt	3	
Douglas		1	Saguache	1	1
Elbert	4		San Juan	1	
El Paso	17	5	Sedgwick	1	
Fremont	3	3	Teller	2	
Gunnison	2		Washington	1	
Huerfano	7	2	Weld	20	2
Jefferson	2		Yuma	2	1
Kiowa		1	State of Wyoming	19	5
Lake	2				
La Plata	4		Total	205	56
Larimer	6	1			

CHANGES IN STAFF

As a rule, there are very few changes in our staff of officers and teachers as our people become very much interested in our pupils and have little desire to make a change. However, we regretted losing some of our good teachers this year.

Miss Elizabeth Woods was married during the year and resigned at the close of the school session. Miss Woods was in the Physical Education Department and taught our girls and junior deaf boys. Her place was filled by the appointment of Miss Arbetta Kashimura who has had good training in this field of work.

Miss Margaret Moeller and Miss Marjorie Beeman, both teachers of the deaf, resigned after the close of school to be married. We were fortunate in being able to secure two well-trained and experienced teachers—Miss Elizabeth Williams and Miss Livingston Patton—to fill these vacancies.

When Miss Evelyn Bond was given a leave of absence last year to study for a degree at Columbia University, we felt that we could absorb her work, but the enrollment was such that we could not do so. Mrs. Margaret Jordan, who had been a teacher at our School, consented to help us out for the year. We are glad to report that Miss Bond is returning to her position with us this fall.

All of our school family were shocked to hear of the sudden and unexpected death, after the close of school, of Mr. C. W. Schiddel, who had been instructor of piano tuning and repairing for the past eighteen years. He was highly respected by all and was also much beloved by his pupils. Besides being an efficient workman, he was a kindly dispositioned man and took a deep interest in the welfare of his pupils after they left school, as well as while they were in school. We shall all miss him greatly. Mr. J. L. Howes, an experienced tuner, has been appointed to teach tuning and repairing for the coming year.

GRADUATES

Ten fine young people graduated from the School this year. Eight were from the Department for the Deaf and two from the Department for the Blind. We are rather proud of these graduates because a large percent, if not all of them, have already become usefully employed.

One of our Colorado students taking the post-graduate course took the Gallaudet College entrance examinations, which are given on a competitive basis throughout the country, and is being admitted to the college this fall.

The exhibition of the articles and products from our various

trade shops and Domestic Science Department at Commencement time proved again to be of much interest.

Our graduating exercises were held Monday evening, June 3rd, and we were most fortunate in having our Governor, the Honorable Ralph L. Carr, with us to award the diplomas to the graduates. Our people all felt honored and the members of the senior class will always remember with pride that they received their diplomas from his own hand.

After the special prizes were presented, diplomas were awarded to the following:

DEPARTMENT FOR THE DEAF

Hope Ardis Bristol	Russell Eugene Hurley
Mary Florence Gutierrez	Lawrence Gordon Lincoln
Ella Louise Leonard	Herbert Wilson Votaw
Archie Lee Chaboude	Steve Millard Milner

DEPARTMENT FOR THE BLIND

Leon O. Dudley	John E. Friel
----------------	---------------

A diploma in music was awarded to William Monk and a certificate in tuning was awarded to Leon Dudley.

The Baccalaureate Services were held in our Chapel at three o'clock Sunday afternoon, June 2nd, with the Reverend Edward F. Manthei of the First Congregational Church of Colorado Springs giving the sermon.

SCHOOL WORK

Our teachers continue to be interested in professional growth by attending summer school or by their attendance at national conventions of teachers in our professions. This growth is reflected in our school work.

About sixty percent of the teachers in the Department for the Blind attended the convention of the American Association of Instructors of the Blind in Pittsburgh, Pennsylvania, and several from the Department for the Deaf attended a convention of teachers of the deaf in Providence, Rhode Island, in June. This is the best means of keeping in touch with the best approved methods. Some of our people were called upon to present papers at these conventions.

With an enthusiastic faculty cooperating in every respect, the school work for the year has been kept up to the usual high standard.

At times opportunities come for our students to compete in contests with students in the public schools. Last spring one such essay contest was sponsored for high school students by the Vet-

CLASSROOM HEARING AID

erans of Foreign Wars on "The Benefits of a Democracy". We are pleased to report that this contest was won by Guillerma Gonzales, one of our students in the Department for the Blind.

COURSES OF STUDY REVISED

In order to fill the needs of any school and to keep up with the changes in the methods of instruction it is necessary to revise the course of study from time to time. In keeping with these aims, the courses of study in the Primary and Intermediate departments for the deaf have been revised to meet the requirements and to make the courses more complete. Our methods of teaching are highly technical and clearness of purpose is an important factor in bringing about success.

AURICULAR TRAINING

Every school for the deaf always has a large number of pupils with varying degrees of residual hearing. This hearing, however, is not sufficiently good to enable them to attend public school successfully, and in most cases they are not able to understand words or language or to learn to speak through the use of the natural channel of normal hearing.

Schools for the deaf for many years have been giving some forms of auricular training with the hope of teaching these pupils how to make use of the hearing which they have. Some could be taught through their hearing and some could not. However, science has done a wonderful job during the last few years in the development of hearing aids, and pupils with a low percentage of hearing who could not be "taught to hear" a few years ago can now be reached through their ears. As a result of these improvements, more and more attention is being given to the use of group classroom hearing aids.

Where the pupils can be thus taught, the language is better, the voice is more natural, and progress faster. It is the hope, in many cases where pupils are taught in this way, that they may be able to secure individual hearing aids and can be sent out from us able to converse with their friends and in the business world in a rather normal way. Two additional classroom group hearing aids have been purchased to supplement our equipment.

VOCATIONAL TRAINING

In our last year's report we mentioned the fact that, with the assistance of the State Vocational Rehabilitation Department, we were trying the experiment of sending two of our promising girls to a beauty culture college in town. We watched this experiment with much interest. We are glad to report that both girls led their classes and upon graduation passed the "State Board" with high

grades. We are also pleased to report that both girls are gainfully employed at their trade.

We appreciate the splendid assistance given by the Vocational Rehabilitation Department and we have reason to believe that we can work together in the future to mutual advantage for the benefit of some of our other pupils.

Our various shops at the School continue to do good work, and it is a source of satisfaction to us to see our young people go out into the business world and into industry and secure and hold their share of the available jobs.

HEALTH, HOUSEHOLD AND MORALE

For any student body to have a good morale, its members must be healthy and must be properly housed, fed and cared for. In addition to these, they must be kept interested at their school work with a sufficient amount of recreation and entertainment to round out the program.

Under the care of our doctors and the School nurse the matter of the health of our pupils is considered of prime importance. Their watchful care has resulted in our having a very good year from the standpoint of health. We naturally had cases of minor illnesses incidental to childhood, but nothing really serious.

The household department, under the direction of our matron, prepares good, wholesome food, the supervisors or housemothers create as far as possible a homelike atmosphere for those under their care, the schoolroom teachers and the instructors in the trades give them interesting work to do, while their athletic games, contests and gymnastics furnish splendid recreation. All of us co-operate in furnishing recreation and entertainment. Educational trips, parties, picnics, shows, hikes, etc., add to their pleasure and help keep the morale of our pupils at a high level.

BUILDINGS AND MAINTENANCE

We have some very fine buildings. There are some, however, that should be definitely replaced to insure the safety and comfort of our pupils. I refer specifically and especially to our Girls' Hall, which is a real hazard. The building is not safe, and housing deaf girls and blind girls, as it does, the results would be difficult to forecast in case of a fire. Our Industrial Building and School Hospital should also be replaced.

In regard to maintenance, the buildings on the grounds have been kept in a good state of repairs. Our classes in painting and carpentry have done a good job in this respect.

The inside of Asa T. Jones Hall was completely redecorated during the year and all of the furniture was refinished and the

beds painted. Ritter Hall was painted on the outside. The living rooms of the service building were kalsomined. All of the woodwork in Palmer Hall was refinished. All of the buildings were repaired where necessary and various jobs of painting gave our buildings a pleasing appearance when school opened.

THE DEAF-BLIND

For about thirty years we have not had a person who was both deaf and blind apply for admission to our School. There are only a certain number in the United States and Colorado has been fortunate in not having any within its border.

Last year we had two make application to us, and it seemed to us that they should at least be given a trial. As it would be rather expensive to establish a Department for the Deaf-Blind in our School, our board, as a matter of economy, asked and secured authority from the State Executive Council to send these two pupils to Perkins Institution at Watertown, Massachusetts, where they already have a Department for the Deaf-Blind and where they have ample equipment for teaching such pupils. At the end of the year we were advised that, for obvious reasons, these two pupils should not return in the fall.

APPRECIATION

There are so many people interested in the welfare of our School and our pupils that we have every reason to be thankful. So many thoughtful things are done for our students that it would be practically impossible to enumerate all of them.

We appreciate courtesies extended by the American Legion and Veterans' organizations.

The Civic Concerts Association has been very thoughtful of our pupils in making it possible for them to attend the Civic Concerts series throughout the year.

The Colorado Springs Fine Arts Center has also been very generous to our pupils.

To all of these we express our thanks. For the courtesy of the officers of our State extended to us and for their keen interest in our School we wish also to express our appreciation.

Respectfully submitted,

A. L. BROWN,
Superintendent.

July 1, 1940.

Report of the Director of Music

Dr. A. L. Brown,
Superintendent.

DEAR SIR:

The report of the Music Department for the year 1939-1940 is very gratifying. The pupils were interested in their work and made very satisfactory progress. As usual, we had a class in Braille Music. Before entering this class the pupils are required to have one year of literary Braille. Monthly recitals were given throughout the year. Three public recitals, one by the Junior division, one by the Intermediate and one by the Senior division, were given at the close of the school year. The pupils took part in thirty-two programs in the city and also different places in the State. The pupils are given many opportunities to attend concerts and other entertainments.

The number of pupils enrolled in the department follows:

Piano	33
Organ	3
Violin	9
Orchestra	10
Harmony	4
History	1
Tuning	5
Vocal	1
Guitar	1
Saxophone	1
Senior Choir	25
Junior Choir	16
Primary Choir	9
Boys' Glee Club	14

Respectfully submitted,

MABEL L. HEMUS,
Director of Music.

Report of the Medical Staff

*Colorado State Board of Health,
Denver, Colorado.*

DEAR SIRs:

At the request of Dr. A. L. Brown, Superintendent, Colorado School for Deaf and Blind, we the undersigned are herewith submitting our report for the school year, September 1, 1939, to June 5, 1940.

The School maintains a hospital of twenty beds and an annex hospital for contagious diseases with a capacity of thirty beds. The hospital is under the constant supervision of Miss Urania King, a registered nurse.

At the beginning of the school year, each new pupil is examined by an eye specialist, an ear, nose and throat specialist, and is given a general physical examination. Routine Wassermans were taken, all of which were negative.

The total attendance for the school year was two hundred sixty-one. There was a daily average of 70 dispensary treatments.

Admittance to the hospital, with diagnosis, follows:

Adenitis	5	Ilio-colitis	11
Appendicitis	5	Serum sickness	1
Acute catarrhal bronchitis	12	Laryngitis	8
Apedemic catarrhal bronchitis..	65	Indigestion	44
Bruises, cuts and minor injuries	7	Eye surgery	3
Chorea	5	Appendectomy	1
Coryza	76	Fractures humerus	1
Diabetic with secondary infection	1	Fractures phalange	1
Ear abscess	4	Scarlet fever	1
Earache	3	Mumps	30
Menorrhagia	2	Scabies	8
Headache	18	Chicken pox	7
Observation	35	Ringworm	2
Infections	12	Toxic rash	3
Tonsillitis	29	Dermatitis intertrigo	1
School daily average	271	Wassermans	28
Hospital days	1599	Successfully vaccinated for smallpox	10
Hospital daily average	6	Immunized against diphtheria..	15
Cases of contagion	38	Deaths	0
Fractures	2	Dispensary daily average	70
Surgical cases	4		

Respectfully submitted,

J. H. BROWN, M. D.
D. A. VANDERHOOF, M. D.
GEORGE H. STINE, M. D.

LIBRARY FUND

This fund consists of \$10,000 donated by General William J. Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Heights Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

TABLE V

Showing kinship as reported in 1200 cases of deafness and 519 cases of blindness.

DEAF

In thirty-nine (39) cases of deafness, parents were related before marriage.

Twenty-six (26) deaf pupils have deaf parents.

One hundred seventy-eight (178) deaf pupils have deaf relatives.

BLIND

In sixteen (16) cases of blindness, the parents were related before marriage.

Nine (9) blind pupils have blind parents.

Forty-six (46) blind pupils have blind relatives.

Colorado School for Deaf and Blind

HISTORICAL

The "Colorado Institute for Deaf Mutes" was founded in 1874, while the State was yet a Territory; the Blind Department being added in 1883. There were present on the opening day six pupils, the home of the School being a small frame building long since torn down. Up to the present time some 1200 deaf persons and 519 blind persons have been enrolled as pupils, the number of both in attendance the present session (1939-1940) being 261. The valuation of buildings and equipment is \$1,105,000.31; adding to this the value of the land and live stock brings our total valuation to \$1,155,668.31.

CHARACTER OF THE SCHOOL

The Colorado School for Deaf and Blind is, as the name implies, a school pure and simple. It was established in accordance with the purpose of the State to give to every child within her boundary capable of taking it a common school education. It is not in any sense an "asylum" or "home" for afflicted, it is not a hospital for the care and treatment of the eyes and ears, and it is not a place for the detention and care of the imbecile. A child so unsound physically as to require constant care, or so backward mentally as to make no progress in the literary department, cannot be retained in the School.

COURSE OF STUDY

The course of study for deaf covers about the same ground as the public schools of the State. The blind, to whom language presents no difficulty, are given a very thorough high school course. To secure the best results in both instances it is necessary that the child be entered as soon as it becomes of school age, and that the attendance be regular and continuous throughout the entire course.

METHOD OF INSTRUCTION

In the Department for the Blind methods are those approved by the best schools of the country. Revised Braille is used in the greater part of the literary work and in music, but all are taught to write script and operate typewriters.

A CLASS IN PAINTING

In the Department for the Deaf all new pupils are placed in oral classes, where the attempt is made to teach them to speak and read the lips. Those who have learned to talk before losing their hearing, and some of those born deaf, do well under this method, and such are kept in the oral department during their stay here. All school work with these pupils is done orally, so there is no danger of their forgetting how to talk, as some parents fear. There are, however, some deaf children who can never learn to speak well enough to make it of practical value, and these are taught by use of the manual alphabet and by writing.

TRADES

In addition to work in the literary department, the School undertakes to give each pupil such knowledge of some trade as may be a help in gaining a livelihood after graduation. To this end, from one to three hours per day through the entire course is spent in the shops under competent instructors. The trades taught at present are: *For the blind boys*—Broom making, brush making, piano tuning, shoemaking, rug, carpet and hammock weaving. *For the deaf boys*—Baking, barbering, carpentry, gardening, painting, printing, shoemaking and sloyd. All girls have regular instruction in sewing, knitting, crocheting, and such general housework as is involved in the care of their own rooms. A selected number are given instruction in dressmaking. All older girls, both deaf and blind, have lessons in cooking under a trained instructor.

TERMS OF ADMISSION

All deaf and blind persons, of sound mind and body, between the ages of six and twenty-one years, actual residents of Colorado, are entitled to admission to the School free of charge. This includes all those whose hearing or sight is so impaired as to prevent them from obtaining an education in the public schools. Tuition, board and laundry, medicines and medical attendance, books and apparatus used in teaching—in short, everything is furnished free of charge, except clothing and traveling expenses. In cases of absolute poverty, the respective counties assume expense of traveling and clothing. While no persons are taken into the School for the purpose of giving medical treatment, all children coming to us are examined by a specialist, and treatment is given wherever it is needed. The sick have the very best care and attention.

SESSIONS

The School opens in September on the first Wednesday after

Labor Day, and closes on the first Wednesday of the following June, thus giving the pupils nine months at the School and three months at home each year. All pupils must be promptly removed at the close of the session.

GENERAL REMARKS

As has been said before, the Colorado School for Deaf and Blind is not an asylum or a hospital for the care of afflicted children. Parents desirous of entering children should carefully observe the following:

First—A child once entered is expected to remain until the close of the session, and cannot be withdrawn without the consent of the Superintendent. Pupils withdrawn without his consent forfeit the right to the privileges of the School unless permitted to return by special action of the Board of Trustees. This, of course, does not apply to those who may prove ineligible because of physical or mental deficiency. Such pupils must be removed as soon as the deficiency is established beyond question.

Second—All pupils expecting to attend school should be sent promptly on the opening day, and those not so entered, except for such reasons as may be deemed valid by the Superintendent, shall be denied admission until the opening of the next year.

Third—All children should, if possible, be vaccinated before entering.

Fourth—Parents must furnish postage in all cases, and may hear from their children in proportion to the amount furnished. The session lasts about forty weeks. Parents of the small children sending us sixty cents (60c) may hear from their children once a week—ten letters and thirty postals. Those who do not furnish postage will not hear, except in case of illness, when a report is made daily until the child is out of danger.

Fifth—A contingent fee of \$10.00 must be deposited in every case to purchase such articles of clothing, shoes, etc., likely to be needed during the session. A strict account will be kept of all expenditures and an itemized statement made at the close of the school year. Clothing or shoes may be sent from home or purchased here by us, but nothing will be furnished without the cash before hand, except in cases of county pupils.

Sixth—All clothing should be of good quality and well made, with the buttons sewed on tightly. Good shoes are cheapest. Woolen underwear and woolen stockings are not needed unless

the child be very delicate. In no case purchase so-called fleeced-lined underwear. It does not wash well. A good quality of balbriggan is best. Our children romp and play a great deal, as all healthy children do, and are consequently very hard on clothing. All articles should be plainly marked. The best way is to sew the name in turkey red, which will last as long as the garment.

Seventh—Parents will be expected to pay for property wantonly destroyed by their children. We find that nothing makes children so careful as to know that the parent is held responsible for their carelessness, and parents are as much interested as we are in raising their children to a right appreciation of the responsibilities in life.

Eighth—While we are always glad to have parents visit their children, they cannot be entertained at the School. Parents are at liberty to have their children stay downtown with them over night, but not to interfere with the class work when it can be helped.

Ninth—All packages sent should be fully prepaid, and, if you wish receipt acknowledge, should be sent in care of the Superintendent. All letters to pupils should be addressed directly to them in care of the School.

Tenth—No attention will be paid to any complaint or any communication of any kind not addressed to the Superintendent, or the Board of Trustees. All money should be sent by express, money order, or registered letter, directly to the Superintendent, who will at once acknowledge receipt of same.

Eleventh—Teachers are sent out to the most important points at opening and close of the School to assist pupils in making changes and accompany them to school.

Twelfth—Please bear in mind that the School is more than a quarter of a mile from the nearest depot, and a full mile from the other one. Buses run within a block of the School.

For any further information apply to

A. L. BROWN, *Superintendent,*
School for Deaf and Blind,
Colorado Springs, Colo.

List of Clothing

FOR SMALL GIRLS (6 TO 12)

3 white cotton undershirts	5 pairs bloomers	1 comb
*1 gymnasium suit	1 sweater or jacket	1 hair brush
1 pair gymnasium shoes	6 pairs stockings	1 tooth brush
2 pairs stocking supporters	12 handkerchiefs	1 nail brush
3 night dresses or pajamas	5 wash dresses	1 coat, heavy
1 pair bedroom slippers	3 underwaists	1 cap
1 bunch shoe strings	1 bath robe	1 pair gloves
3 union suits, light	2 pairs shoes	

FOR OLDER GIRLS (12 TO 21)

3 night dresses or pajamas	1 pair gloves	6 wash cloths
2 hats—1 winter, 1 summer	12 handkerchiefs	1 nail brush
1 lightweight dress, for best	2 pairs shoes	1 tooth brush
1 woolen dress, for best	1 wool skirt	1 hair brush
5 wash dresses for school	2 white middies	1 comb
2 colored cotton undershirts	5 pairs bloomers	1 pair zippers
2 coats—1 heavy, 1 light	6 pairs stockings	1 bath robe
3 brassieres (older girls)	2 white undershirts	3 undervests
1 pair bedroom slippers	1 bunch shoe strings	1 cap
	*1 gymnasium suit	1 sweater
	1 pair gymnasium shoes	

Send pieces like dresses and put pockets in dresses

FOR SMALL BOYS (6 TO 12)

3 suits lightweight underwear	1 pair rubbers	1 overcoat
2 pairs overalls or coveralls	2 hats of caps	6 neckties
1 suitcase or small trunk	12 handkerchiefs	2 combs
1 pair mittens or gloves	2 tooth brushes	2 betts
1 pair bedroom slippers	1 doz. shoe strings	3 pajamas
*1 gymnasium suit	2 pairs strong shoes	2 sweaters
1 pair gymnasium shoes	3 extra pairs of pants	8 pairs hose
	6 shirts—2 dark blue, 1 white, 3 print	1 hair brush
		1 strong suit

FOR OLDER BOYS (12 TO 21)

3 suits lightweight underwear	1 dozen shoe strings	1 pair gloves
7 shirts—4 school, 2 blue for work, 1 white	3 pairs pajamas	6 pairs hose
1 pair bedroom slippers	2 pairs strong shoes	6 neckties
2 pairs hose supporters	12 handkerchiefs	1 belt
*1 gymnasium suit	2 pairs overalls	1 comb
1 pair gymnasium shoes	2 hats or caps	1 sweater
	2 strong suits	1 hair brush
	1 tooth brush	

Mark all clothing with name in full.

*We much prefer getting the gymnasium suits, etc., at the School. The outfit for girls costs from \$3.25 to \$3.75, and for boys from \$2.00 to \$2.50

General Information

1. Every trunk or other piece of luggage should be marked with the name of the owner.

2. All mail should be addressed to the pupil in care of the Colorado School for Deaf and Blind.

3. All communications concerning the pupils, or school business of any kind, **should be addressed to the Superintendent.**

4. Send us the number of your nearest telephone so that in case of sickness we can get into immediate touch with you.

5. All clothing should be in first-class repair before the pupil leaves home.

6. Each article of wearing apparel should be marked plainly, using Payson's indelible ink, or by sewing the name or number in turkey red. In marking the clothing, please observe the following:

Mark shirts, undershirts, night shirts, night dresses, etc., inside the back of neck; children's aprons on the band; handkerchiefs and towels on the corner. Don't be afraid to make the mark large and clear.

SCENE FROM A PLAY GIVEN BY THE DRAMATIC CLASS IN THE DEPARTMENT FOR THE BLIND

Report of the Board of Trustees

*To His Excellency,
Hon. Ralph L. Carr,
Governor of Colorado.*

SIR:

It again becomes my pleasant duty as President of the Board of Trustees of the Colorado School for Deaf and Blind to present to you the sixty-seventh report of the activities of the School ending June 30, 1941.

There were two hundred and fifty-three enrolled during the year.

Our urgent need of a new girls' dormitory has received from your Excellency and from other State Officials such sympathetic understanding that we are deeply grateful. Now, happily, we look forward to the speedy completion of the building with a deepening sense of indebtedness to your Excellency and our other friends, the State Officials.

The continuing high standard of all the graduates of our School, both deaf and blind, who have gone forward into the field of higher education, bears high tribute to the work done by our School.

Detailed accounts of the activities and financial statements will be found elsewhere in this report.

I want to again commend our teachers and officers for their continued interest in pupils entrusted to them for care and instruction.

Respectfully submitted,

ASA T. JONES,
President Board of Trustees.

July 1, 1941.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN :

It is now my privilege to submit to you the annual report of the Colorado School for Deaf and Blind for the year ending June 30, 1941.

Because of the large number of pupils reaching the age limit and the unusually large graduating class last June, our enrollment this year is eight less than it was last year. The probability is, however, that the enrollment for 1941-1942 will exceed last year's figures.

There were enrolled in the School for the year just closed 253 pupils, and they are classified as follows:

Deaf pupils	Boys, 124; girls, 79.	Total, 203
Blind pupils	Boys, 27; girls, 22.	Total, 49
*Deaf-Blind pupils	Boys, 0; girls, 1.	Total, 1
		Total, 253

*Sent by this School to Perkins Institute, where they have a department for Deaf-Blind pupils.

The following is the enrollment by counties:

County	Deaf Blind		County	Deaf Blind	
Adams	3	—	Grand	1	—
Alamosa	3	1	Gunnison	1	—
Archuleta	4	—	Huerfano	7	2
Baca	3	1	Jefferson	2	—
Bent	2	1	Kiowa	—	1
Boulder	4	4	Kit Carson	1	—
Chaffee	3	1	Lake	3	—

Sedgwick	1	..			
Teller	2	..	Total.....	203	49
Washington	1		Deaf-Blind—Chaffee Co.		1

CHANGES IN STAFF

Each year usually brings with it some changes in our staff of officers and teachers. However, the changes are few considering the number of employees.

Mr. William Milligan, who taught one of our deaf classes and coached the football team, resigned to accept a similar position in the Illinois School for the Deaf at Jacksonville. Jacksonville was Mr. Milligan's former home. Mr. Lang Russel, an experienced teacher of the deaf, was appointed to take Mr. Milligan's school-room work. Some of us will have to assume his coaching duties.

Miss Livingston Patton, another teacher of the deaf, received an attractive offer to teach in Washington, D. C. Miss Mary Brown, who, by the way, is no relation of mine, was appointed to take her place. Miss Brown has had very good training indeed and has also had some teaching experience.

Mr. Cecil Effinger, our teacher of violin and orchestra, resigned to devote more time to his duties at Colorado College. His place was filled by the appointment of Mr. Tor Hylbom of Colorado Springs. Mr. Hylbom has had considerable experience and at one time taught blind students.

Miss Urania King, our School nurse, decided to make her home in Denver, and therefore resigned. Miss Thelma Wright, a registered nurse whose home is in Center, Colorado, was appointed to fill the vacancy.

Two of our young men employees of the School, Mr. Irwin Marshall and Mr. William Hill, have gone into the government service.

If the defense program is continued, we believe many of the people employed in our field will be attracted to government positions in Washington, as they were in the First World War, necessitating undesired changes in our staff.

GRADUATES

There were ten graduates this year from the Department for the Deaf and none from the Department for the Blind. These young people have completed the course and have made good records. Some of these plan to take higher education, while some of the others already have some position in mind..

Our very best wishes go with them as they go out from us.

Commencement is always an important time to all concerned, and the graduating exercises constitute the most outstanding event. Honorable Ralph L. Carr, our Governor, who has a real place in the affections of our pupils, was with us to give the commencement address and to award the diplomas to the members of the graduating class. According to our custom, the General Excellence Prizes were presented, after which diplomas were awarded to the following:

DEPARTMENT FOR THE DEAF

Maxine Ethelyn Coll	Annie Louise Lovato
Loretta Josephine Garcia	Mary Miles Minter
Opal May Gatlin	Lawrence Edward Duran
Margaret Louise Johnson	Thomas George Fishler
Dorothy Lauretta Lamm	Donald Mervin Garretson

The Baccalaureate Services were held in our Chapel at three o'clock Sunday afternoon, June 1st, with Reverend J. H. Skeen, D. D., Pastor of the First Baptist Church of Colorado Springs, giving the sermon.

CONVENTIONS

Conventions of Instructors of the Deaf and conventions of Instructors of the Blind are held biennially—on alternate years. Our teachers are encouraged to attend, and a large percent do so.

The convention of Instructors of the Deaf was held in Fulton, Missouri, in June.

The program was replete with demonstrations of the latest methods of teaching, and there were excellent papers dealing with important phases of our work.

Many of our teachers were in attendance to bring back to our School the inspiration which they had gained.

In addition to getting inspiration, the Colorado School had something to contribute. Several of our teachers had important places on as many different programs, ranging from the academic and vocational to the leisure time activities.

The Colorado School presented an evening of entertainment with a square-dance set of deaf pupils from the Colorado School. This activity amounts to much more than just a little dancing for pleasure. It can be made to have an important bearing on the morale of a school family and on the life of the pupils in their home communities.

A number of teachers who did not go to the convention in Fulton attended summer school to better fit themselves for their work.

NEW BUILDINGS

Through recommendations of the State Planning Commission and Governor Ralph L. Carr, the State Legislature passed a mill levy which is calculated to raise sufficient funds to replace the Girls' Hall, the Industrial Building, and the School Hospital. We are pleased that the above needs were recognized by all and that action has been taken to correct the existing conditions.

The most urgent of these needs is the replacing of the Girls' Hall, which has been a dangerous hazard for some time. Plans and specifications are being drawn at the present time, and if favorable bids can be secured, it is anticipated that contracts will be awarded in the near future and construction begun.

OUR DAIRY HERD

The School has a very fine dairy herd. This herd has been developed by good care and proper breeding. For more than fifteen years this herd has produced an average of over 500 pounds of butterfat per cow. We are told that this is an enviable record indeed.

During the month of January, 1941, our herd produced an average of 65.6 pounds of butterfat, which is the highest record that has ever been made in the State of Colorado for this size herd.

In the same month one of our cows produced 144 pounds of butterfat, which is also the highest record that has ever been made in Colorado.

Our record for the year beginning July 1, 1940, and ending June 30, 1941, was a herd average of 569 pounds of butterfat. This is also a new record in Colorado for this size herd.

Mr. Theodore Meeds, our dairyman, is to be commended on the very fine record which his cows and his herd have made.

CONCLUSION

The various departments of the School have functioned well during the past year and this has been reflected in the progress of our students. They are going out prepared to do some form of work. When jobs are at all available, we hear on every hand that our graduates and former students are steadily employed.

Great numbers of our students are also gainfully employed during the summer months when the School is not in session. When pupils are taught to work, they will become useful men.

The efforts of our teachers, instructors and officers to improve the standing of our School is greatly appreciated.

The School is fortunate in having many people on the outside

interested in the welfare and pleasures of our pupils. So many things have been done for our student body that they are too numerous to mention. However, they are greatly appreciated.

The officials of the State have been most considerate of our needs. Honorable Ralph L. Carr, our Governor, has shown a most friendly attitude to the officers of the School, and to the pupils as well. The other State officials have cheerfully extended to us any assistance needed, and in a most courteous manner.

Our efforts will be continued to keep our School up to the usual high standard.

Respectfully submitted,

A. L. BROWN,
Superintendent.

July 1, 1941.

Report of the Director of Music

Dr. A. L. Brown,
Superintendent.

DEAR SIR:

The report of the Music Department for the year 1940-1941 is very satisfactory. The pupils took a great deal of interest in their work and made splendid progress. As is our custom, we had a class in Braille music for beginners. Before entering this class, the pupils are required to have one year of literary Braille. The regular monthly recitals were given throughout the year. This gives the pupils experience in playing before an audience, which is very valuable.

At the close of the school year three public recitals were given, one by the Junior department, one by the Intermediate, and one by the Senior pupils. The pupils took part on many programs outside of their school recitals. Many opportunities were given the pupils to attend concerts and other entertainments.

The number of pupils enrolled in the department follows:

Piano	35
Organ	3
Violin	11
Cello	1
Cornet	1
Orchestra	16
Guitar	1
Vocal	1
Harmony	3
History	1
Tuning	7
Senior Choir	25
Junior Choir	14
Primary Choir	8
Boys' Glee Club	14

Respectfully submitted,

MABEL L. HEMUS,
Director of Music.

Report of the Medical Staff

*Colorado State Board of Health,
Denver, Colorado.*

DEAR SIRs:

At the request of Dr. A. L. Brown, we, the undersigned, are herewith submitting our report for the school year, September 4, 1940, to June 3, 1941.

The school maintains a hospital of twenty-four beds and an annex hospital for contagious diseases with a capacity of thirty beds. The hospital is under the constant supervision of Miss Urania M. King, a graduate nurse.

At the beginning of the school year, each new pupil was examined by an eye specialist, an ear, nose and throat specialist, and was given a general physical examination. Routine Wassermans were taken.

The total attendance for the school year was 253. There was a daily average of 60 dispensary treatments. Admittance to the hospital, with diagnosis, follows:

Acute Follicular tonsillitis	10	Incision and drainage of fur-	
Aphthous Stomatitis	1	uncle	1
Acute Indigestion	34	Measles	54
Acute Catarrhal Bronchitis	1	Mumps	1
Appendicitis	1	Observation	41
Appendectomy	1	Observation for trachoma	1
Acute conjunctivitis	6	Rash (unclassified)	8
Acute bronchitis	10	Rheumatism	2
Bronco-Pneumonia	2	Scabies	11
Cervical adenitis	2	Scarlet fever	17
Chicken pox	1	Secondary influenza	2
Coryza	87	Staphylococcus infection	1
Diabetic coma	1	Tonsillitis	1
Dysmenorrhea	2	Toothache	1
Epileptic seizure	1	Urtecaria	2
Eczema	1	Vincent's infection	1
Epidemic influenza	113	Ilio colitis	1
Farache	2	Bruises, cuts and minor injuries	4
Fractured clavicle	1	Observation for whooping cough	3
Hospital days	1727	Successfully vaccinated for

Total received from Auditor of State	\$157,129.53
Total received from Superintendent	15,449.63
	<u>\$266,598.46</u>
Total disbursements	169,481.13
Balance on hand July 1, 1941	<u>\$ 97,117.33</u>

LIBRARY FUND

This fund consists of \$10,000 donated by General William J. Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Heights Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

1940

RECEIPTS

July 1—Balance on hand	\$2,270.80
July 1—A. L. Brown, Superintendent	\$60.00

THE NEW GIRLS' DORMITORY WHICH WAS RECENTLY COMPLETED AND IS NOW OCCUPIED BY
OUR OLDER DEAF GIRLS AND OUR BLIND GIRLS

Report of the Board of Trustees

*To His Excellency,
Hon. Ralph L. Carr,
Governor of Colorado.*

SIR:

It again becomes my privilege as President of the Board of Trustees of the Colorado School for Deaf and Blind to present to you the sixty-eighth report of the activities of the School ending June 30, 1942.

There were two hundred and sixty-seven enrolled during the school year.

The School is very happy at the approaching completion of the new Girls' Hall. Our contractors feel assured of receiving the necessary supplies to carry out the building program. Governor Carr and other State officials may feel just pride in the success of such an undertaking in times like the present. Everyone connected with the School is deeply grateful for the help given us.

The continuing high standard of all the graduates of our School, both deaf and blind, who have gone forward into the field of higher education, again bears high tribute to the work done by the School.

Detailed accounts of the activities and financial statements will be found elsewhere in this report.

I want to again commend our teachers and officers for their continued interest in pupils entrusted to them for care and instruction.

Respectfully submitted,

ASA T. JONES,
President Board of Trustees.

July 1, 1942.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN :

I now have the honor to present the annual report of the Colorado School for Deaf and Blind for the year ending June 30, 1942. The enrollment for the school year was 267, which represents a little more than a 5 per cent increase over last year's enrollment. When we take into consideration the existing conditions, it would seem that our enrollment has held up very well indeed.

It would be difficult to predict what effect the present conditions will have on the attendance at the next session of school.

The pupils in school during the year just closed were classified as follows:

Deaf pupils	boys, 135; girls, 76.	Total, 211
Blind pupils	boys, 35; girls, 20.	Total, 55
*Deaf-Blind pupils	girls, 1.	Total, 1
Total.....		267

*Sent by this School to Perkins Institute, where they have a department for the Deaf-Blind.

The following is the enrollment by counties:

County	Deaf	Blind	County	Deaf	Blind
Adams	2		Eagle	1	1
Alamosa	2	2	Elbert	2	
Arapahoe	2		El Paso	19	4

CHANGES IN STAFF

As could be expected under the conditions that exist at the present time, we had some changes in staff during the year. Miss Thelma Wright, who served as school nurse, resigned to be married and her place was filled by the appointment of Miss Ada Witter, who is a graduate nurse. Miss Arbetta Kashimura, director of athletics for our girls and younger boys, resigned at the close of school and her place was filled by the appointment of Miss Glenna Fulker. Miss Fulker is a resident of Colorado Springs and a graduate of the University of Colorado. Shortly after school closed, Miss Elsie Spicer, one of our teachers of the deaf, resigned to be married. Mrs. Margaret Jordan, who has taught at the School before, was appointed as a teacher of the deaf. Miss Ada McBride, who has served the School a great many years as instructor in handwork and sewing for the blind girls and younger blind boys, handed in her resignation during the summer in order to retire. Mrs. Olga W. May, an experienced teacher in this line, was appointed to fill the vacancy caused by Miss McBride's resignation. Mrs. Maggie LeFevre, who has served the School many years as instructor of sewing for the older deaf girls, retired at the end of the school year. Miss Lydia Jensen, who has had experience with the deaf and in teaching sewing to the deaf, was promoted to the position of teaching of sewing to our older deaf girls. Miss Sylvia Ray, who has been assistant in the hospital, was advanced to the position of Relief Supervisor.

Shortly before school opened, and before this report was put into print, Mr. Lang Russel, a teacher of the deaf, and Miss Willie Mae King, a teacher of the deaf, resigned to go into other lines of work. It appears that our enrollment will be reduced some in the advanced department, where pupils are old enough to remain at

home, and for this reason we feel that we can possibly consolidate some of the classes, which will enable us to get along without the appointment of teachers to fill these two vacancies. It is anticipated that other changes will take place during the year.

GRADUATES

We were fortunate again this year in having with us, on the occasion of our graduating exercises, the Honorable Ralph L. Carr, Governor of Colorado, who made the Commencement address and awarded the diplomas to the members of the graduating class. This was particularly pleasing to our graduates for many of them had learned to know our Governor personally through his visits to the School and because of his interest in the welfare of the individual members of our student body. In addition to the personal reasons, they were happy to receive their diplomas from the hand of the chief executive of our State.

According to custom, the General Excellence Prizes were awarded.

The following graduates were awarded diplomas:

DEPARTMENT FOR THE DEAF

Rose Jean Gargano	Wayne Roger Bell
Marianne Madeline Medonich	John Cipriano Gallegos
Betty Jane Stutler	Clarence Jacob Kamminga
Audrey Jean Watson	Joseph Abraham Salazar
Everett Ernest Seigle, Jr.	

DEPARTMENT FOR THE BLIND

Wayne Eugene Domeny	William Lowell Standage
Carl Raymond Uhrig	

The three graduates in the Department for the Blind had learned the piano tuning trade along with their regular academic work and, having completed their course, were given Certificates in Tuning.

In addition to the regular graduating class, we had two post-graduates, Thomas Fishler and Mervin Garretson, taking the preparatory course for entrance to Gallaudet College for the Deaf in Washington, D. C. We are glad to report that both passed their college board with a very high standing, in competition with candidates from schools for the deaf throughout the United States.

The ministers of Colorado Springs have always been very generous with their time in conducting our Baccalaureate Services. This year these services were held in our Chapel at three o'clock Sunday afternoon, May 31st. Reverend Howard E. Hansen.

D. D., pastor of the First Presbyterian Church, delivered the sermon.

SCHOOL WORK AND INDUSTRIAL TRAINING

While we have many activities at the School, the classroom work and the industrial training come first. The classroom work is planned so as to give those who are capable of receiving it practically the equivalent of a high school education. In doing this, the best approved methods of instruction are used. In some instances methods or schemes of teaching that have been developed at this School have been adopted by other schools of this kind.

Industrial training or trades teaching occupies a very important place in our school work. The different trades are taught in the afternoons and the schoolroom work is carried on in the mornings. As far as possible, the work in the literary department is dovetailed with what is being taught in the Industrial Department. Never before has there been such a demand for skilled workmen, and our boys have been taking their places successfully in industry and in defense work. Some have even become foremen in their line of work.

Besides the satisfaction they give from doing their work well, they have the pleasure of realizing that they are making their contribution to the war program.

OUR NEW GIRLS' DORMITORY

By an act of the last Legislature provision was made which authorized this School to issue anticipation warrants for the erection of certain buildings. The most urgent need was that of replacing the old girls' dormitory. This building was condemned many years ago and the walls were being held together by iron rods. It was in a dangerous condition and was also a fire hazard. The State Planning Commission and Governor Carr approved the plan of demolishing the old building and erecting a new fireproof girls' dormitory which could be planned to much better serve the needs of our girls.

After plans were made for the demolition of the old building, the Board of Trustees of the School entered into a contract with Raymond C. Whitlock, contractor, to erect a new one. This is going to be a very fine building, large enough to allow for ample expansion in enrollment.

We appreciate the support and cooperation of Governor Carr and the State Planning Commission in carrying through the plan. The work has progressed in a satisfactory manner, but it is uncertain at this time as to whether it will be ready for occupancy when school opens this fall.

After the destruction of the old building, and during the construction of the new dormitory, the girls were housed in the Argo Building and the officers' dining room. Some of the storage rooms in this building were turned into study halls and sewing rooms. As temporary quarters, these served very well. Those who had been living in the Argo Building were scattered over the place wherever space could be found. Everyone cooperated and the arrangements worked out exceedingly well. Our girls, however, will be looking forward to occupying their new home when it is completed.

DEMONSTRATIONS

In the summer of 1941 a program was started by our State government calculated to acquaint the people of Colorado with what the State is doing in its various agencies and institutions. We felt that this was a good thing. By way of cooperation in this effort we have put on demonstrations of our work before various clubs and organizations, not only in and around Colorado Springs, but in other cities of the State. We felt that this would not only serve the purpose for which it was intended, but might serve a greater purpose by causing some child to get an education at our School who otherwise might never have known what provision has been made for him by our State.

FINANCES

The finances of the School have always been kept in good shape. However, no one can tell what the future may bring forth. We have tried to handle the affairs of the School in such a way as to build up a small "back log" to meet any unfavorable situation that may lie before us.

MAINTENANCE

Our buildings have been kept in a good state of repairs. This testifies to the good work of our classes in carpentry and painting under the direction of their instructors.

There were many items of painting in the various buildings. Some were practically re-decorated on the inside and completely re-painted on the outside.

All of the buildings at the dairy ranch have been put in good repair and painted during this period.

The roofs of our various buildings have been inspected regularly and, when necessary, fresh coats of roof paint have been applied.

Beds and other articles of furniture have been re-finished when necessary and the classroom desks have been cleaned and re-varnished. Maintenance plays an important part in the life of any institution.

APPRECIATION

It seems that our School and our pupils have a great deal for which to be thankful. The people of Colorado Springs and many organizations do things to add pleasure and happiness to the lives of our children. We wish to express our appreciation to the following:

The Colorado College Music Department for tickets to concerts.
Miss Carol Truax and the Drama Club for tickets to plays and concerts.

The Colorado Springs Symphony Orchestra for the privilege of attending its concerts.

The Civic Music Association for tickets to its programs.

Mr. J. E. Tompkins, manager of three Colorado Springs moving picture theatres, who has always been very considerate of our pupils.

We appreciate the interest of the members of our Board of Trustees who give of their time without compensation.

We appreciate the officials of the State of Colorado. They have been most courteous and most cooperative.

The teachers and officers of the School have been devoted to their tasks and are to be commended on the excellence of their work.

Respectfully submitted,

A. L. BROWN,
Superintendent.

July 1, 1942.

Report of the Director of Music

Dr. A. L. Brown,
Superintendent.

DEAR SIR:

The report of the Music Department for the year 1941-1942 is most satisfactory. The pupils were interested in their work and made fine progress. It is our custom to have a Braille music class for beginners, after they have had one year of literary Braille.

As usual, regular monthly recitals were given throughout the year. Playing before an audience gives the pupils very valuable experience.

At the close of the year three public recitals were given—one by the Junior department, one by the Intermediate department and one by the Senior department.

Every year the pupils take part on many programs outside of our School. Many opportunities were given the pupils to attend concerts and other entertainments.

The number of pupils enrolled in the department follows:

Piano	35
Organ	3
Violin	12
Cello	1
Orchestra	10
Harmony	2
Vocal	1
Music Appreciation	9
Senior Choir	26
Junior Choir	12
Primary	11
Boys' Glee Club	15
Male Quartet	4
Tuning	6

Respectfully submitted,

MABEL L. HEMUS,
Director of Music.

Report of the Medical Staff

*Colorado State Board of Health,
Denver, Colorado.*

GENTLEMEN—At the request of Dr. A. L. Brown, we, the undersigned, are herewith submitting our report for the school year, September 4, 1941, to June 1, 1942.

The School maintains a hospital of twenty-four beds and an annex hospital for contagious diseases with a capacity of thirty beds. The hospital is under the constant supervision of Miss Helen V. Hitchcock, a graduate nurse.

At the beginning of the school year, each new pupil was examined by an eye specialist, an ear, nose and throat specialist, and was given a general physical examination. Routine Wassermans were taken.

The total attendance for the school year was 267. There was a daily average of 60 dispensary treatments. Admittance to the hospital with diagnosis follows:

Acute catarrhal bronchitis.....	245	Incision and drainage of fascial abscess	1
Acute conjunctivitis	3	Incision and drainage of inguinal abscess	1
Acute indigestion	61	Intestinal influenza	5
Appendectomy	1	Inguinal adenitis	1
Appendicitis	8	Mastoiditis	4
Bruises, cuts and minor injuries	18	Pink eye	1
Burn	1	Pleurisy	4
Cervical adenitis	40	Pneumonia	3
Dislocated humerus	1	Rheumatism	2
Dislocated ulna	2	Scabies	8
Dysmenorrhea	12	Sprained ankle	6
Earache	4	Syncope	2
Epileptic seizure	1	Tonsillitis	18
Fractured humerus	1	Toothache	4
Fractured ulna	1	Vaccination reaction	2
German measles	1	Observation	12
Headache	4		
Hypoglycemia	1		
Impetigo	5		
Hospital days	1824	Immunized against diphtheria	12
Hospital daily average	6	Deaths	0
Cases of contagion	2	Dispensary daily average	60
Fractures	2	Wassermans	38
Surgical cases	1	(One positive case under treatment)	
Successfully vaccinated for small pox	11		

Respectfully submitted,

J. H. BROWN, M. D.

G. H. STINE, M. D.

D. A. VANDERHOOF, M. D.

LIBRARY FUND

This fund consists of \$10,000 donated by General William J. Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Heights Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

DEAF-BLIND

Morgan, Juanita.....Malnutrition

TABLE V

Showing kinship as reported in 1254 cases of deafness and 539 cases of blindness.

DEAF

In thirty-nine (39) cases of deafness, parents were related before marriage.

Thirty (30) deaf pupils have deaf parents.

One hundred seventy-nine (179) deaf pupils have deaf relatives.

BLIND

In sixteen (16) cases of blindness, the parents were related before marriage.

Nine (9) blind pupils have blind parents.

Fifty (50) blind pupils have blind relatives.

Colorado School for Deaf and Blind

HISTORICAL

The "Colorado Institute for Deaf Mutes" was founded in 1874, while the State was yet a Territory; the Blind Department being added in 1883. There were present on the opening day six pupils, the home of the School being a small frame building long since torn down. Up to the present time some 1254 deaf persons and 539 blind persons have been enrolled as pupils, the number of both in attendance the present session (1941-1942) being 267. The valuation of buildings and equipment is \$1,102,533.70; adding to this the value of the land and livestock brings our total valuation to \$1,153,233.70.

CHARACTER OF THE SCHOOL

The Colorado School for Deaf and Blind is, as the name implies, a school pure and simple. It was established in accordance with the purpose of the State to give to every child within her boundary capable of taking it a common school education. It is not in any sense an "asylum" or "home" for afflicted, it is not a hospital for the care and treatment of the eyes and ears, and it is not a place for the detention and care of the imbecile. A child so unsound physically as to require constant care, or so backward mentally as to make no progress in the literary department, cannot be retained in the School.

COURSE OF STUDY

The course of study for deaf covers about the same ground as the public schools of the State. The blind, to whom language presents no difficulty, are given a very thorough high school course. To secure the best results in both instances it is necessary that the child be entered as soon as it becomes of school age, and that the attendance be regular and continuous throughout the entire course.

METHOD OF INSTRUCTION

In the Department for the Blind methods are those approved by the best schools of the country. Revised Braille is used in the greater part of the literary work and in music, but all are taught to write script and operate typewriters.

In the Department for the Deaf all new pupils are placed in oral classes, where the attempt is made to teach them to speak and read the lips. Those who have learned to talk before losing their hearing, and some of those born deaf, do well under this method, and such are kept in the oral department during their stay here. All school work with these pupils is done orally, so there is no danger of their forgetting how to talk, as some parents fear. There are, however, some deaf children who can never learn to speak well enough to make it of practical value, and these are taught by use of the manual alphabet and by writing.

TRADES

In addition to work in the literary department, the School undertakes to give each pupil such knowledge of some trade as may be a help in gaining a livelihood after graduation. To this end, from one to three hours per day through the entire course is spent in the shops under competent instructors. The trades taught at present are: *For the blind boys*—Broom making, brush making, piano tuning, shoemaking, rug, carpet and hammock weaving. *For the deaf boys*—Baking, barbering, carpentry, gardening, painting, printing, shoemaking and sloyd. All girls have regular instruction in sewing, knitting, crocheting, and such general housework as is involved in the care of their own rooms. A selected number are given instruction in dressmaking. All older girls, both deaf and blind, have lessons in cooking under a trained instructor.

TERMS OF ADMISSION

All deaf and blind persons, of sound mind and body, between the ages of six and twenty-one years, actual residents of Colorado, are entitled to admission to the School free of charge. This includes all those whose hearing or sight is so impaired as to prevent them from obtaining an education in the public schools. Tuition, board and laundry, medicines and medical attendance, books and apparatus used in teaching—in short, everything is furnished free of charge, except clothing and traveling expenses. In cases of absolute poverty, the respective counties assume expense of traveling and clothing. While no persons are taken into the School for the purpose of giving medical treatment, all children coming to us are examined by a specialist, and treatment is given wherever it is needed. The sick have the very best care and attention.

SESSIONS

The School opens in September on the first Wednesday after

Labor Day, and closes on the first Wednesday of the following June, thus giving the pupils nine months at the School and three months at home each year. All pupils must be promptly removed at the close of the session.

GENERAL REMARKS

As has been said before, the Colorado School for Deaf and Blind is not an asylum or a hospital for the care of afflicted children. Parents desirous of entering children should carefully observe the following:

First—A child once entered is expected to remain until the close of the session, and cannot be withdrawn without the consent of the Superintendent. Pupils withdrawn without his consent forfeit the right to the privileges of the School unless permitted to return by special action of the Board of Trustees. This, of course, does not apply to those who may prove ineligible because of physical or mental deficiency. Such pupils must be removed as soon as the deficiency is established beyond question.

Second—All pupils expecting to attend school should be sent promptly on the opening day, and those not so entered, except for such reasons as may be deemed valid by the Superintendent, shall be denied admission until the opening of the next year.

Third—All children should, if possible, be vaccinated before entering.

Fourth—Parents must furnish postage in all cases, and may hear from their children in proportion to the amount furnished. The session lasts about forty weeks. Parents of the small children sending us sixty cents (60c) may hear from their children once a week—ten letters and thirty postals. Those who do not furnish postage will not hear, except in case of illness, when a report is made daily until the child is out of danger.

Fifth—A contingent fee of \$10.00 must be deposited in every case to purchase such articles of clothing, shoes, etc., likely to be needed during the session. A strict account will be kept of all expenditures and an itemized statement made at the close of the school year. Clothing or shoes may be sent from home or purchased here by us, but nothing will be furnished without the cash before hand, except in cases of county pupils.

Sixth—All clothing should be of good quality and well made, with the buttons sewed on tightly. Good shoes are cheapest. Woolen underwear and woolen stockings are not needed unless

the child be very delicate. In no case purchase so-called fleeced-lined underwear. It does not wash well. A good quality of balbriggan is best. Our children romp and play a great deal, as all healthy children do, and are consequently very hard on clothing. All articles should be plainly marked. The best way is to sew the name in turkey red, which will last as long as the garment.

Seventh—Parents will be expected to pay for property wantonly destroyed by their children. We find that nothing makes children so careful as to know that the parent is held responsible for their carelessness, and parents are as much interested as we are in raising their children to a right appreciation of the responsibilities in life.

Eighth—While we are always glad to have parents visit their children, they cannot be entertained at the School. Parents are at liberty to have their children stay downtown with them over night, but not to interfere with the class work when it can be helped.

Ninth—All packages sent should be fully prepaid, and, if you wish receipt acknowledged, should be sent in care of the Superintendent. All letters to pupils should be addressed directly to them in care of the School.

Tenth—No attention will be paid to any complaint or any communication of any kind not addressed to the Superintendent, or the Board of Trustees. All money should be sent by express, money order, or registered letter, directly to the Superintendent, who will at once acknowledge receipt of same.

Eleventh—Teachers are sent out to the most important points at opening and close of the School to assist pupils in making changes and accompany them to school.

Twelfth—Please bear in mind that the School is more than a quarter of a mile from the nearest depot, and a full mile from the other one. Buses run within a block of the School.

For any further information apply to

A. L. BROWN, *Superintendent*,
School for Deaf and Blind,
Colorado Springs, Colo.

List of Clothing

FOR SMALL GIRLS (6 TO 12)

3 white cotton undershirts	5 pairs bloomers	1 comb
*1 gymnasium suit	1 sweater or jacket	1 hair brush
1 pair gymnasium shoes	6 pairs stockings	1 tooth brush
2 pairs stocking supporters	12 handkerchiefs	1 nail brush
3 night dresses or pajamas	5 wash dresses	1 coat, heavy
1 pair bedroom slippers	3 underwaists	1 cap
1 bunch shoe strings	1 bath robe	1 pair gloves
3 union suits, light	2 pairs shoes	

FOR OLDER GIRLS (12 TO 21)

3 night dresses or pajamas	1 pair gloves	6 wash cloths
2 hats—1 winter, 1 summer	12 handkerchiefs	1 nail brush
1 lightweight dress, for best	2 pairs shoes	1 tooth brush
1 woolen dress, for best	1 wool skirt	1 hair brush
5 wash dresses for school	2 white middies	1 comb
2 colored cotton undershirts	5 pairs bloomers	1 pair zippers
2 coats—1 heavy, 1 light	6 pairs stockings	1 bath robe
3 brassieres (older girls)	2 white undershirts	3 undervests
1 pair bedroom slippers	1 bunch shoe strings	1 cap
	*1 gymnasium suit	1 sweater
	1 pair gymnasium shoes	

Send pieces like dresses and put pockets in dresses

FOR SMALL BOYS (6 TO 12)

3 suits lightweight underwear	1 pair rubbers	1 overcoat
2 pairs overalls or coveralls	2 hats of caps	6 neckties
1 suitcase or small trunk	12 handkerchiefs	2 combs
1 pair mittens or gloves	2 tooth brushes	2 betts
1 pair bedroom slippers	1 doz. shoe strings	3 pajamas
*1 gymnasium suit	2 pairs strong shoes	2 sweaters
1 pair gymnasium shoes	3 extra pairs of pants	8 pairs hose
	6 shirts—2 dark blue, 1 white, 3 print	1 hair brush
		1 strong suit

FOR OLDER BOYS (12 TO 21)

3 suits lightweight underwear	1 dozen shoe strings	1 pair gloves
7 shirts—4 school, 2 blue for work, 1 white	3 pairs pajamas	6 pairs hose
1 pair bedroom slippers	2 pairs strong shoes	6 neckties
2 pairs hose supporters	12 handkerchiefs	1 belt
*1 gymnasium suit	2 pairs overalls	1 comb
1 pair gymnasium shoes	2 hats or caps	1 sweater
	2 strong suits	1 hair brush
	1 tooth brush	

Mark all clothing with name in full.

*We much prefer getting the gymnasium suits, etc., at the School. The outfit for girls costs from \$3.25 to \$3.75, and for boys from \$2.00 to \$2.50

General Information

1. Every trunk or other piece of luggage should be marked with the name of the owner.

2. All mail should be addressed to the pupil in care of the Colorado School for Deaf and Blind.

3. All communications concerning the pupils, or school business of any kind, **should be addressed to the Superintendent.**

4. Send us the number of your nearest telephone so that in case of sickness we can get into immediate touch with you.

5. All clothing should be in first-class repair before the pupil leaves home.

6. Each article of wearing apparel should be marked plainly, using Payson's indelible ink, or by sewing the name or number in turkey red. In marking the clothing, please observe the following:

Mark shirts, undershirts, night shirts, night dresses, etc., inside the back of neck; children's aprons on the band; handkerchiefs and towels on the corner. Don't be afraid to make the mark large and clear.

Report of the Board of Trustees

*To His Excellency,
Hon. John C. Vivian,
Governor of Colorado.*

SIR:

It again becomes my pleasure as President of the Board of Trustees of the Colorado School for Deaf and Blind to present to you the sixty-ninth report of the services of the School during the 1942-1943 session.

There were two hundred and forty-five students enrolled in the School during the year.

On April 1, 1943, Governor John C. Vivian strengthened our Board by the appointment of Mr. Leo R. Gottlieb.

In spite of the times, the School still goes forward with uninterrupted prosperity. Like all other institutions of the State, we, too, feel the difficulties of the times, but so far have been able to successfully overcome each one as it appears.

Through the completion of Girls' Hall, due in great measure to the interest and sympathy of Governor Carr, we are now adequately housed for that group of pupils and they are now freed from any danger from fire. This was a great essential to girls being either deaf or blind.

Details of the work will be found in the report of the Superintendent and other allied reports.

I again wish to express our appreciation of the work done by both teachers and officers of the institution.

Respectfully submitted,

ASA T. JONES,
President Board of Trustees.

July 1, 1943.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN :

It is now my duty and privilege to present to you the annual report of the Colorado School for Deaf and Blind for the year ending June 30, 1943.

The enrollment for the school year was 245, which represents a small decrease from last year. It is surprising that the enrollment has held up so well, because many parents of our children have moved from the state to work in ship yards, or to do some form of war work in distant places. After the necessity for doing war work passes, doubtless many will return home to their former occupations and our attendance will be influenced accordingly.

The pupils in school during the year were classified as follows :

Deaf pupils	boys, 121; girls, 76.	Total, 197
Blind pupils	boys, 30; girls, 17.	Total, 47
*Deaf-Blind pupils	girls, 1.	Total, 1
Total		245

*Sent by this School to Perkins Institute, where they have a department for the Deaf-Blind.

The following is the enrollment by counties :

County	Deaf	Blind	County	Deaf	Blind
Adams	3	—	El Paso	16	3
Alamosa	1	1	Fremont	3	3
Arapahoe	5	3	Grand	2	—
Archuleta	2	—	Gunnison	1	—
Baca	4	1	Huerfano	5	1

Pueblo	12	4	Total.....	197	47
Rio Grande	2				
Routt	2		Deaf-Blind—Chaffee Co.		1

CHANGES IN STAFF

As could be expected under conditions such as we are experiencing at this time, we had a greater number of changes in our personnel than usual.

Among our teachers we had the following resignations: Miss Evelyn Bond resigned as a teacher of the deaf to be married, and her place was filled by the appointment of Mrs. Emma Rose Jefferson, an experienced teacher. Miss Mary Brown resigned to be married, and Miss Lucille Donle, who has had special training in a good school, was appointed to take her place. Miss Glenna Fulker, director of athletics for our girls, resigned to be married, and Mrs. Emma Cunningham, a former pupil of our School and an experienced teacher, was appointed to take the vacancy thus created. Mrs. Mary Neff, who helped us out as teacher of sewing to our blind girls while her husband was located in an army camp here, resigned to go back to her home. Mrs. Grace McClure was appointed to fill this vacancy. Miss Lydia Jensen, our instructor in sewing and dressmaking in the Department for the Deaf, has been advanced to the position of supervisor of blind girls. She also has general charge of Girls' Hall. Mrs. Edna Hill has been appointed instructor of sewing and dressmaking to take her place.

From time to time teachers or employees who have gained valuable experience in our School have been called to higher positions in other schools for the deaf or the blind. Mr. Lewis Mayers, who has taught in the Advanced Department for the Deaf for several years, was called to be the principal of the Mississippi School for the Deaf. Unless our enrollment is larger than we now anticipate we shall be able to carry on very nicely without filling his place.

Miss Ada Witter, the school nurse, resigned to be married, and Miss Helen Hitchcock, who is a registered nurse, was appointed to take her place.

We also had some changes in our supervising staff. Mrs. Estelle Ritcherson, who had charge of Girls' Hall and supervised the blind girls, decided to retire at the end of the year. As stated above, Miss Lydia Jensen was appointed to take her place. Mrs. Nora Stewart, supervisor of small deaf girls in one of the

primary buildings, retired at the end of the year, and her place was filled by the appointment of Mrs. Beulah Tinsley. Mrs. J. E. House, relief, also retired, and Miss Marjorie Josepeit was appointed to take her place.

These employees who are leaving us have given faithful service and our best wishes go with them.

GRADUATES

Never in the history of our School have our graduates gone out from us with such opportunities for employment as they experienced this year. With the training they have had and the ideals which have been instilled into them, we feel sure they will measure up to any task or responsibility entrusted to them. We regret exceedingly that there is a war, but if it brings with it any compensations at all, one of them is that our graduates and other deaf and blind people have been given an opportunity to show that their true worth and skills are usually equal to those of their hearing and seeing brothers and sisters and that sometimes they excel in certain fields.

The graduating exercises this year were held Monday evening, May 31st, at eight o'clock. It is a source of pleasure to us to have our state officials interested in our work, our School and our pupils. Several of them attended our exercises this year, and we were particularly happy to have our Governor, the Honorable John C. Vivian, with us to give the commencement address and to award the diplomas to the members of the graduating class. His presence not only meant much to our pupils, but also meant much to all connected with the School.

After the General Excellence prizes were given out, the following, who had completed their course, were awarded diplomas:

DEPARTMENT FOR THE DEAF

Frances Lorraine Hurley	Edward Everett Adair
Lewis Eugene Lain	Stephen Puzick
Ernest George Runco	

DEPARTMENT FOR THE BLIND

James Russell Kleine

In addition to his diploma, James Kleine received a Certificate in Piano Tuning.

Audrey Watson, a post-graduate who was taking the preparatory course for entrance to Gallaudet College for the Deaf, passed the College Board with high marks and has been advised to enter Gallaudet this fall.

As a part of the graduation program, the usual industrial exhibit was presented in the corridors of the School Building.

The Reverend Gerald Berneking, pastor of the First Christian Church of Colorado Springs, preached the sermon at the Baccalaureate Services, which were held in our Chapel on Sunday afternoon, May 30th, at three o'clock.

GIRLS' HALL

In our last Report we stated that provisions had been made for a new girls' dormitory and that it was under construction. For a while it looked as if we would have difficulty in securing necessary materials. However, by prompt action we avoided this and ordered all critical materials ahead of time and stored them at the School so that we would have them on hand when needed. Work on the building was never held up for lack of critical supplies.

The greatest event of the year, especially in the eyes of our older girls, was the completion of this building. It was accepted by our Board in November, 1942, and the girls moved into it on the day after Thanksgiving. Those who occupy the building find it very livable and comfortable.

We appreciate the cooperation of the state officials, the architect, the contractors and all concerned in the erection of this dormitory. We especially appreciate the helpful suggestions of Mr. W. F. Fulker, our instructor in carpentry, who also has general charge of the maintenance of all our buildings, and of Mr. George Flinn for his advice in the matter of the heating, plumbing and electrical installations. The painting and decorating is being beautifully done by Mr. O. H. Hill, our instructor in painting, and his class. As a result of this cooperation, we have a very fine, beautiful and substantial building.

WAR WORK

We have always been impressed with the value of manual training or trades teaching to the pupils of our School, but we have never been more impressed with its value than now. Scores of pupils, both boys and girls, deaf and blind, have graduated or gone out from our School and found their places. Some are working in ship yards, some in munitions plants, some in airplane factories, or in other industries essential to the war effort. We are pleased with reports about their work. Some have advanced beyond the role of casual worker and have become foremen. Some have been able to offer suggestions that eliminate the services of one person and thereby make him available for other work. We commend our instructors for the careful training they are giving our pupils.

WAR BONDS AND STAMPS

Our people have cooperated with the other employees of the state in buying War Bonds when they could do so. Our pupils became imbued with the patriotic spirit and bought several hundreds of dollars worth of Defense Stamps during the year.

OUR SCHOOL PLANT

Since the completion of Girls' Hall we have been able to house all of our pupils in fireproof buildings. This is a great comfort to those in charge of the School.

According to the plans as adopted by the Board of Trustees and the State Planning Commission, the old Industrial Building and the little School Hospital are to be replaced as soon as conditions make it advisable.

In spite of the labor shortage, the buildings on the place have been kept in a good state of repairs. Some of our employees have left us to accept high-paying, war-time jobs but those who remained and those who were added to our staff have done a good piece of work.

VICTORY GARDEN

The matter of food and the point system of rationing has presented a real problem in caring for our pupils. We have always raised some vegetables, but our garden was expanded this year until it may be classed as a Victory Garden. We hope it will prove to be a real help. Such products were raised in quantity as we felt could be kept most conveniently through the winter months. Even with this help, patience will be required by all concerned.

CONCLUSION

In spite of these difficult times, we have much for which to be thankful. The School is still performing well the function for which it was established. Certain individuals and organizations in town continue to be interested in the welfare and pleasure of our students. We particularly appreciate the thoughtfulness of Miss Carol Truax, Mr. J. E. Tompkins, the Colorado Springs Fine Arts Center, the Colorado Springs Music Association, and the Civic Music Association in inviting our students to various programs.

We appreciate the interest which the Board of Trustees has always manifested in the School.

I commend to you the services which the teachers and officers have rendered to the School.

Respectfully submitted,

July 1, 1943.

A. L. BROWN,
Superintendent.

Report of the Director of Music

Dr. A. L. Brown,
Superintendent.

DEAR SIR:

The work accomplished by the Music Department for the year 1942-1943 was very satisfactory. The pupils have shown an interest in their work and have made very good progress. After having had a year of literary Braille, the pupils enter a Braille music class and this is the beginning of their work in the Music Department.

Monthly recitals were given throughout the year, and this is a valuable experience for them. At the close of the school year, two public recitals were given, one by the younger pupils and another by those pupils more advanced. This spring an innovation, in the form of an operetta, "The Governor's Daughter," was given by the Music Department. This performance proved to be quite a success and we considered it a feat for handicapped children to have accomplished this.

The pupils are grateful for the many opportunities given them to attend concerts and other entertainments.

The number of pupils enrolled in the department follows:

Piano	29
Organ	3
Violin	14
Cello	2
Orchestra	10
Harmony	1
Vocal	1
Senior Choir	25
Junior Choir	11
Primary Choir	9
Boys' Glee Club	13
Guitar	1
Tuning	5

Respectfully submitted,

MABEL L. HEMUS,
Director of Music.

Report of the Medical Staff

*Colorado State Board of Health,
Denver, Colorado.*

GENTLEMEN—At the request of Dr. A. L. Brown, we, the undersigned, are herewith submitting our report for the school year, September 9, 1942, to June 1, 1943.

The School maintains a hospital of twenty-four beds and an annex hospital for contagious diseases with a capacity of thirty beds. The hospital is under the supervision of Miss Helen Hitchcock, a graduate nurse.

At the beginning of the school year, each new pupil was examined by an eye specialist, an ear, nose and throat specialist, and was given a general physical examination. Routine Wassermans were taken.

The total attendance for the school year was 245. There was a daily average of 52 dispensary treatments. Admittance to the hospital, with diagnosis, follows:

Adenitis Cervical	10	Finger	1
Adenitis Inguinal	2	Knee	2
Anemia Secondary	1	Leg	1
Appendicitis sub acute	3	Mastoiditis {	1
Bronchitis acute catarrhal.....	22	Mastoidectomy {	3
Collection of urin specimen		Menorrhagia	6
(24 hr.)	1	Muscle pains	1
Conjunctivitis	6	Neuritis	60
Coryza	145	Observation for acute fever.....	8
Croup	2	Otitis Media	3
Diarrhea acute	1	Paratits	1

Balance on hand July 1, 1943.....		\$ 87,813.87

LIBRARY FUND

This fund consists of \$10,000 donated by General William J. Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Heights Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

1942

Report of the Board of Trustees

*To His Excellency,
Hon. John C. Vivian,
Governor of Colorado.*

SIR:

It has become my great pleasure as President of the Board of Trustees of the Colorado School for Deaf and Blind to present the Seventieth report of the services of the school during the 1943-44 session.

There were two hundred and thirty-three enrolled in the school.

The demand for labor has been so great that it has slightly diminished our attendance. Otherwise, the school has gone forward with undiminished success. Details of the work will be found in the report of the Superintendent and other identical reports.

I wish again to express my appreciation of the work done by both officers and teachers.

Respectfully submitted,

July 1, 1944.

ASA T. JONES,
President Board of Trustees.

Report of the Superintendent

To the Board of Trustees of the Colorado School for Deaf and Blind:

GENTLEMEN :

It is a privilege and an honor to present to you the annual report of the Colorado School for Deaf and Blind for the year ending June 30, 1944.

In keeping with the government's desire to have us conserve, this report will necessarily be short.

There were enrolled in the school during the year 233 students. Considering the times, we feel that the enrollment has held up well. High wages in defense positions has tempted some to stay out of school to work. While a great majority realize the importance of securing an education.

The pupils in attendance were classified as follows:

Deaf pupils	boys, 107; girls, 77.	Total 184
Blind pupils	boys, 31; girls, 16.	Total 47
Deaf-blind pupils	**boys, 1; *girls 1.	Total 2

Total		233
-------	-------	-----

*Sent by this school to Perkins Institute, where they have a department for the Deaf-Blind.

**Home teacher.

The following is the enrollment by counties:

County	Deaf	Blind	County	Deaf	Blind
Adams	3	—	El Paso	16	2
Alamosa	1	1	Fremont	1	—
Arapahoe	7	4	Gunnison	1	—
Archuleta	2	—	Huerfano	4	1

Rio Grande	1	DEAF-BLIND	
Routt	2	Chaffee	1
Sedgwick	1	El Paso	1
Teller	1		
Weld	21	Total	49

CHANGES IN STAFF

We had several changes in personnel at the close of school. The following teachers left our service for various reasons: Miss Ruby Molohon resigned to be married, Mrs. Barbara Adney resigned to go with her husband who was in the army, Mrs. Emma Cunningham gave up her gymnastic work to become a classroom teacher. Miss Evelyn Veitch resigned to accept employment in another state. Miss Grace Beattie who had served the school so faithfull and so long decided to retire under our state retirement plan. Miss Helen Hitchcock, our school nurse, felt it her patriotic duty to go into the service of either the navy or the army and resigned with that intention in view.

The following classroom teachers have been appointed: Miss Jane Sitton, teacher of the Deaf; Miss Hazel Cress, teacher of the Deaf; Miss Ermine Neal, teacher of the Deaf; Mrs. Emma Cunningham, teacher of the Deaf.

Miss Deborah Froelicher was appointed director of athletics for our girls and Miss Millicent Fuller was appointed school nurse.

Once more our school has been called upon to furnish a president for one of the other state schools for the Deaf and Blind. Mr. Genn I. Harris who served this school as teacher and later as Head Teacher in the Department for the Deaf with a total of seventeen years of service was called to be president of the Montana School for the Deaf and the Blind at Great Falls, Montana. Mr. Harris is an experienced educator and it is a natural expectation that his administration of the Montana school will be a successful one.

Mr. James R. Kirkley who has been principal of the West Virginia School for the Deaf and the Blind for several years has been appointed to take the place made vacant by the resignation of Mr. Harris. Before becoming principal of the West Virginia school Mr. Kirkley had had several years experience in the South Carolina School and in the American School for the Deaf at Hartford Connecticut.

Mr. Lee Poole, supervisor of older boys, resigned during the year because of impaired health. His place was filled by the

appointment of Mr. Fred Bates, who at one time was supervisor of boys in our school. Mrs Bates proved to be an important addition, also, to our hospital staff. Mrs. Susie Wolover was appointed relief supervisor to take Mrs. J. E. House's place and Mrs. T. J. Kelley was appointed to the relief position left vacant by the retirement of Mrs. Winifred Slavick.

We express our appreciation for the excellent service rendered the school by those that are retiring or entering other fields of endeavor.

GRADUATES

Our graduating class was composed of a very capable group of young people. We feel safe in saying that each one will go out into the world and fill his or her place in a creditable manner.

The graduating exercises were held Monday evening, June 5, at 8:00 o'clock. The annual exhibit from the Industrial Department was held in connection with the graduating exercises. Hon. John C. Vivian, our Governor, who planned to be with us on this occasion was detained at the last minute by important state business. In the absence of Governor Vivian, the diplomas were awarded to the graduates by Mr. Asa T. Jones, president of the Board of Trustees.

In accordance with the annual custom, the General Excellence Prizes were given out after which diplomas were awarded to the following pupils who had completed the course:

DEPARTMENT FOR THE DEAF

Ruth Josephine Anderson	Antonio Danti
Juanita Jane Bratton	Francis Norman McCracken
Lillian Mollie Stefan	

DEPARTMENT FOR THE BLIND

Guillerma R. Gonzales	Thelma Adeline Smith
-----------------------	----------------------

The Baccalaureate services were held Sunday, June 4 at 3:00 o'clock in the afternoon. Dr. Walter G. Schaeffer, pastor of the United Brethren church gave the sermon.

This year we has no post-graduates taking the preparatory course for entrance to Gallaudet College for the Deaf, however, Audrey Watson, whom we sent to Gallaudet last year, was the outstanding student of the College and was continuously on the honor roll. Mervin Garretson, one of our graduates, who was a freshman at Gallaudet last year was also on the honor roll. We

are naturally proud of these records made by these young people who have gone out from our school. Our other students at Gallaudet have also done very creditable work.

COURSE OF STUDY

It has always been our aim to keep our school work up to a high standard. The best approved methods have been employed in both the Department for the Deaf and the Department for the Blind. It therefore becomes necessary to have our course of study revised to fit the changing trends and needs. In keeping with this policy our course of study in the advanced Department for the Deaf has been revised and brought up to date since our last report. The course of study in the Department for the Blind is being revised at the present time.

HEALTH

When our pupils returned to us last fall our examining doctors and nurses said they appeared to be in better physical condition than they had been at the opening of school for a number of years. This is probably one result of the times. Work has been plentiful and the parents have been able to provide better care for their children. With the exception of colds and minor illnesses, the health of our children was very good, indeed, throughout the school year.

In spite of the restrictions good wholesome food was served. This played its part in our health program. There were no deaths during the year.

EMPLOYEES

Along with all other institutions we have felt the acute shortage of help. This presented a real problem in the operation of the school, but this problem was practically overcome by the employment of student help. These young people showed a fine spirit of cooperation and did a splendid job. With their help the school was able to carry on in very much a normal way. In addition to the compensation which they received for their out of hours work, they received valuable training.

MAINTENANCE

Our grounds and lawns have been kept up beautifully by Mr. Zenz and his crew. The victory garden played a large role in supplying vegetables. This was a great help in making it possible for our ration points to carry us through the year.

Mr. Fulker, our instructor in carpentry and Mr. Hill, our instructor in painting along with their crews have kept our buildings in a good state of repair.

Mr. George Hemus, the instructor in printing, and his class have kept the school well supplied with forms, letterheads and other printing required by the school, so that it was not necessary to have any printing done on the outside. In fact, this report is a product of Mr. Hemus and his class in printing.

Each department has cooperated in helping with the maintenance of the school.

THANKS

We want to express our appreciation to those in our city who have always been so thoughtful of our pupils which is usually shown in the form of giving pleasure to them. May we again express our thanks to Mr. J. E. Tompkins, Miss Carol Truax, Mrs. Frederick Boothroid, the Colorado Springs Fine Arts Center, the Colorado Springs Music Association and the Civic Music Association. May we also express our thanks to Mr. Leo Gottlieb, a trustee of the Dr. Alfred Freudenthal Memorial Trust Fund, for a substantial sum given from this fund for the benefit and pleasure of our pupils.

We appreciate the interest which the officials of the state and the Board of Trustees have taken in this school. The services which the officers and teachers of the school have rendered are to be highly commended.

Respectfully submitted,

A. L. BROWN

July 1, 1944

Superintendent.

NEW GIRLS' HALL

Report of the Director of Music

Dr. A. L. Brown,
Superintendent.

DEAR SIR:

The report of the Music Department for the year 1943-1944 is very satisfactory. The pupils have shown an interest in their work and have made splendid progress. As is our custom, we had a class in Braille music for the beginners, this being given the pupils after they have had one year of literary Braille.

The regular monthly recitals were given throughout the year, which is a valuable experience for the pupils, as it gives them confidence in playing before an audience.

At the close of the school year two public recitals were given, one by the younger pupils and another by those pupils more advanced.

The pupils were given many opportunities to attend concerts and other entertainments.

The number of pupils enrolled in the department follows:

Piano	29
Organ	2
Vocal	4
Violin	10
Cello	1
Orchestra	8
Harmony	1
Senior Choir	24
Junior Choir	9
Primary Choir	13
Guitar	1
Tuning	5

Respectfully submitted,

MABEL L. HEMUS,
Director of Music.

Report of the Medical Staff

*Colorado State Board of Health,
Denver, Colorado.*

GENTLEMEN—At the request of Dr. A. L. Brown, we, the undersigned, are herewith submitting our report for the school year, September 8, 1943, to June 7, 1944.

The School maintains a hospital of twenty-four beds and an annex hospital for contagious diseases with a capacity of thirty beds. The hospital is under the constant supervision of Miss Helen Hitchcock, a graduate nurse.

At the beginning of the school year, each new pupil was examined by an eye specialist, an ear, nose and throat specialist, and was given a general physical examination. Routine Wassermans were taken.

The total attendance for the school year was 233. There was a daily average of 43 dispensary treatments. Admittance to the hospital, with diagnosis, follows:

Acute catarrhal bronchitis	8	Scabies	6
Adenitis, cervical	11	Sinusitis	2

Balance on hand July 1, 1944.....	\$ 94,747.11

LIBRARY FUND

This fund consists of \$10,000 donated by General William J. Palmer and is at present invested in lots 6, 7 and 8, block 4, Bristol Heights Addition. The rental obtained from the three residences, less the cost of repair, is set apart for the purchase of reading matter for both departments of the School. According to the conditions of the gift, these properties can be used for no other purpose unless provision be made by the State for the investment of an equal amount in approved securities for the use of the fund.

With the consent of the donor, the income from the fund up to November 30, 1905, was used for current expenses, to help pay for land, the appropriation for which, made in 1903, failed to materialize.

1943

TABLE V

Showing kinship as reported in 1302 cases of deafness and 552 cases of blindness.

DEAF

In thirty-nine (39) cases of deafness, parents were related before marriage.

Thirty (30) deaf pupils have deaf parents.

One hundred eighty-six (186) deaf pupils have deaf relatives.

BLIND

In sixteen (16) cases of blindness, the parents were related before marriage.

Nine (9) blind pupils have blind parents.

Fifty-one (51) blind pupils have blind relatives.

Colorado School for Deaf and Blind

HISTORICAL

The "Colorado Institute for Deaf Mutes" was founded in 1874, while the State was yet a Territory; the Blind Department being added in 1883. There were present on the opening day six pupils, the home of the School being a small frame building long since torn down. Up to the present time some 1302 deaf persons and 552 blind persons have been enrolled as pupils, the number of both in attendance the present session (1943-1944) being 233. The valuation of buildings and equipment is \$1,232,699.08; adding to this the value of the land and livestock brings our total valuation to \$1,283,985.08.

CHARACTER OF THE SCHOOL

The Colorado School for Deaf and Blind is, as the name implies, a school pure and simple. It was established in accordance with the purpose of the State to give to every child within her boundary capable of taking it a common school education. It is not in any sense an "asylum" or "home" for afflicted, it is not a hospital for the care and treatment of the eyes and ears, and it is not a place for the detention and care of the imbecile. A child so unsound physically as to require constant care, or so backward mentally as to make no progress in the literary department, cannot be retained in the School.

COURSE OF STUDY

The course of study for deaf covers about the same ground as the public schools of the State. The blind, to whom language presents no difficulty, are given a very thorough high school course. To secure the best results in both instances it is necessary that the child be entered as soon as it becomes of school age, and that the attendance be regular and continuous throughout the entire course.

METHOD OF INSTRUCTION

In the Department for the Blind methods are those approved by the best schools of the country. Revised Braille is used in the greater part of the literary work and in music, but all are taught to write script and operate typewriters.

In the Department for the Deaf all new pupils are placed in oral classes, where the attempt is made to teach them to speak and read the lips. Those who have learned to talk before losing their hearing, and some of those born deaf, do well under this method, and such are kept in the oral department during their stay here. All school work with these pupils is done orally, so there is no danger of their forgetting how to talk, as some parents fear. There are, however, some deaf children who can never learn to speak well enough to make it of practical value, and these are taught by use of the manual alphabet and by writing.

TRADES

In addition to work in the literary department, the School undertakes to give each pupil such knowledge of some trade as may be a help in gaining a livelihood after graduation. To this end, from one to three hours per day through the entire course is spent in the shops under competent instructors. The trades taught at present are: *For the blind boys*—Broom making, brush making, piano tuning, shoemaking, rug, carpet and hammock weaving. *For the deaf boys*—Baking, barbering, carpentry, gardening, painting, printing, shoemaking and sloyd. All girls have regular instruction in sewing, knitting, crocheting, and such general housework as is involved in the care of their own rooms. A selected number are given instruction in dressmaking. All older girls, both deaf and blind, have lessons in cooking under a trained instructor.

TERMS OF ADMISSION

All deaf and blind persons, of sound mind and body, between the ages of six and twenty-one years, actual residents of Colorado, are entitled to admission to the School free of charge. This includes all those whose hearing or sight is so impaired as to prevent them from obtaining an education in the public schools. Tuition, board and laundry, medicines and medical attendance, books and apparatus used in teaching—in short, everything is furnished free of charge, except clothing and traveling expenses. In cases of absolute poverty, the respective counties assume expense of traveling and clothing. While no persons are taken into the School for the purpose of giving medical treatment, all children coming to us are examined by a specialist, and treatment is given wherever it is needed. The sick have the very best care and attention.

SESSIONS

The School opens in September on the first Wednesday after

Labor Day, and closes on the first Wednesday of the following June, thus giving the pupils nine months at the School and three months at home each year. All pupils must be promptly removed at the close of the session.

GENERAL REMARKS

As has been said before, the Colorado School for Deaf and Blind is not an asylum or a hospital for the care of afflicted children. Parents desirous of entering children should carefully observe the following:

First—A child once entered is expected to remain until the close of the session, and cannot be withdrawn without the consent of the Superintendent. Pupils withdrawn without his consent forfeit the right to the privileges of the School unless permitted to return by special action of the Board of Trustees. This, of course, does not apply to those who may prove ineligible because of physical or mental deficiency. Such pupils must be removed as soon as the deficiency is established beyond question.

Second—All pupils expecting to attend school should be sent promptly on the opening day, and those not so entered, except for such reasons as may be deemed valid by the Superintendent, shall be denied admission until the opening of the next year.

Third—All children should, if possible, be vaccinated before entering.

Fourth—Parents must furnish postage in all cases, and may hear from their children in proportion to the amount furnished. The session lasts about forty weeks. Parents of the small children sending us sixty cents (60c) may hear from their children once a week—ten letters and thirty postals. Those who do not furnish postage will not hear, except in case of illness, when a report is made daily until the child is out of danger.

Fifth—A contingent fee of \$10.00 must be deposited in every case to purchase such articles of clothing, shoes, etc., likely to be needed during the session. A strict account will be kept of all expenditures and an itemized statement made at the close of the school year. Clothing or shoes may be sent from home or purchased here by us, but nothing will be furnished without the cash before hand, except in cases of county pupils.

Sixth—All clothing should be of good quality and well made, with the buttons sewed on tightly. Good shoes are cheapest. Woolen underwear and woolen stockings are not needed unless

the child be very delicate. In no case purchase so-called fleeced-lined underwear. It does not wash well. A good quality of balbriggan is best. Our children romp and play a great deal, as all healthy children do, and are consequently very hard on clothing. All articles should be plainly marked. The best way is to sew the name in turkey red, which will last as long as the garment.

Seventh—Parents will be expected to pay for property wantonly destroyed by their children. We find that nothing makes children so careful as to know that the parent is held responsible for their carelessness, and parents are as much interested as we are in raising their children to a right appreciation of the responsibilities in life.

Eighth—While we are always glad to have parents visit their children, they cannot be entertained at the School. Parents are at liberty to have their children stay downtown with them over night, but not to interfere with the class work when it can be helped.

Ninth—All packages sent should be fully prepaid, and, if you wish receipt acknowledged, should be sent in care of the Superintendent. All letters to pupils should be addressed directly to them in care of the School.

Tenth—No attention will be paid to any complaint or any communication of any kind not addressed to the Superintendent, or the Board of Trustees. All money should be sent by express, money order, or registered letter, directly to the Superintendent, who will at once acknowledge receipt of same.

Eleventh—Teachers are sent out to the most important points at opening and close of the School to assist pupils in making changes and accompany them to school.

Twelfth—Please bear in mind that the School is more than a quarter of a mile from the nearest depot, and a full mile from the other one. Buses run within a block of the School.

For any further information apply to

A. L. BROWN, *Superintendent*,
School for Deaf and Blind,
Colorado Springs, Colo.

List of Clothing

FOR SMALL GIRLS (6 TO 12)

3 white cotton undershirts	5 pairs bloomers	1 comb
*1 gymnasium suit	1 sweater or jacket	1 hair brush
1 pair gymnasium shoes	6 pairs stockings	1 tooth brush
2 pairs stocking supporters	12 handkerchiefs	1 nail brush
3 night dresses or pajamas	5 wash dresses	1 coat, heavy
1 pair bedroom slippers	3 underwaists	1 cap
1 bunch shoe strings	1 bath robe	1 pair gloves
3 union suits, light	2 pairs shoes	

FOR OLDER GIRLS (12 TO 21)

3 night dresses or pajamas	1 pair gloves	6 wash cloths
2 hats—1 winter, 1 summer	12 handkerchiefs	1 nail brush
1 lightweight dress, for best	2 pairs shoes	1 tooth brush
1 woolen dress, for best	1 wool skirt	1 hair brush
5 wash dresses for school	2 white middies	1 comb
2 colored cotton undershirts	5 pairs bloomers	1 pair zippers
2 coats—1 heavy, 1 light	6 pairs stockings	1 bath robe
3 brassieres (older girls)	2 white undershirts	3 undervests
1 pair bedroom slippers	1 bunch shoe strings	1 cap
	*1 gymnasium suit	1 sweater
	1 pair gymnasium shoes	

Send pieces like dresses and put pockets in dresses

FOR SMALL BOYS (6 TO 12)

3 suits lightweight underwear	1 pair rubbers	1 overcoat
2 pairs overalls or coveralls	2 hats of caps	6 neckties
1 suitcase or small trunk	12 handkerchiefs	2 combs
1 pair mittens or gloves	2 tooth brushes	2 belts
1 pair bedroom slippers	1 doz. shoe strings	3 pajamas
*1 gymnasium suit	2 pairs strong shoes	2 sweaters
1 pair gymnasium shoes	3 extra pairs of pants	8 pairs hose
	6 shirts—2 dark blue, 1 white, 3 print	1 hair brush
		1 strong suit

FOR OLDER BOYS (12 TO 21)

3 suits lightweight underwear	1 dozen shoe strings	1 pair gloves
7 shirts—4 school, 2 blue for work, 1 white	3 pairs pajamas	6 pairs hose
1 pair bedroom slippers	2 pairs strong shoes	6 neckties
2 pairs hose supporters	12 handkerchiefs	1 belt
*1 gymnasium suit	2 pairs overalls	1 comb
1 pair gymnasium shoes	2 hats or caps	1 sweater
	2 strong suits	1 hair brush
	1 tooth brush	

Mark all clothing with name in full.

*We much prefer getting the gymnasium suits, etc., at the School. The outfit for girls costs from \$3.25 to \$3.75, and for boys from \$2.00 to \$2.50.

General Information

1. Every trunk or other piece of luggage should be marked with the name of the owner.

2. All mail should be addressed to the pupil in care of the Colorado School for Deaf and Blind.

3. All communications concerning the pupils, or school business of any kind, **should be addressed to the Superintendent.**

4. Send us the number of your nearest telephone so that in case of sickness we can get into immediate touch with you.

5. All clothing should be in first-class repair before the pupil leaves home.

6. Each article of wearing apparel should be marked plainly, using Payson's indelible ink, or by sewing the name or number in turkey red. In marking the clothing, please observe the following:

Mark shirts, undershirts, pajamas, night dresses, etc., inside the back of neck; children's aprons on the band; handkerchiefs and towels on the corner. Don't be afraid to make the mark large and clear.
